Home Insurance Company,

MILWAUKEE, WISCONSIN
Office, No. 6 Kneeland's Block.

THIS COMPANY IS NOW PREPARED TO ISSUE Policies on

Fire, Marine and Inland Navigation Risks,

For periods of from one day to five years on Fire Risks, and on Marine for single trips or season

Insurance may be made in this Company upon the CASH OR PREMIUM NOTE PLAN, either with or without Premium Notes.

This is a new Company organized the 20th of last month, and the Directors have received sufficient guarantee that the Company and its plan have been well received by the insuring public, from the fact that the Company has already issued upwards of 225 policies

Insurance will be made upon Vessels, Freights, Goods, Wares, Merchandise and other property against the perils of

Inland Navigation and Transportation,

and upon Dwelling Houses, Stores and other Buildings, Household Furniture, Merchandise and other property against

LOSS OR DAMAGE BY FIRE.

N B—Only First Class risks will be taken by this Company, and at such rates as may be deemed by the Directors adequate to the risk

A continuance of the patronage of the insuring public is very respectfully solicited

Highly Important to Farmers.

The only Exclusive Farmers' Insurance Company in the West.

THE MADISON MUTUAL,

Located at Madison, Wisconsin.

THIS COMPANY CONTINUES TO TAKE RISKS upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible Companies.

All losses promptly paid at the office as soon as proof is made thereof.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses, but your own of the same class, and all will be on an equal footing.

Experience has shown that two-thirds if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops, and such like property. In this Company all such property is rejected POSITIVELY BY [illegible] FARM ALONE

Farmers, look to your own interest, and insure in a Farmers' Company

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last *fourteen months* we have not had a single dollar loss, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance

FIRE INSURANCE COMPANY.

Office in Martin's Block, Milwaukee.

Capital over $165,000—in Cash and Premium Notes.

THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered, are security beyond the reach of circumstances, as the real estate insured is by law bound for any assessment made to cover losses beyond the power of the division. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 2000 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. Its business is principally confined to this State.

DR. J. B. MARCHISI'S

CELEBRATED CATHOLICON,

For the Relief and Cure of Suffering Females.

IT STANDS PREEMINENT for its curative powers in all the diseases for which it is recommended usually called

Female Complaints.

Of these are Prolapsus Uteri, or Falling of the Womb; Fluor Albus, or Whites; Chronic Inflammation and Ulceration of the Womb; Incidental Hemorrhage, or Flooding; Painful, Suppressed and Irregular Menstruation, &c., with all their accompanying evils, (Cancer excepted,) no matter how severe or how long standing.

The Catholicon far surpasses other remedies, in being more certain, less expensive, and leaving the system in a better condition.

I have no hesitation in saying Dr Marchisi's Uterine Catholicon is invaluable in uterine diseases generally. I have used it in Fluor Albus, Amenorrhea, Prolapsus Uteri, and in cases of extensive ulceration of the uterus and os uteri. It is worthy of the notice of the Faculty
JOHN C ORRICK, M. D.,
Baltimore Md

The Catholicon is doing good service here. All the patients that have tried the medicine have been benefited but one—and that one nothing will help
Truly Yours,
Wm. LAIRD HAZLETT, M. D.,
July 6th, 1854 New Philadelphia, Ohio.

I must say, from my own experience and personal observations in my practice, it has proved to be the best and surest remedy for the difficulties for which it is recommended, viz: that of female weakness, such as Prolapsus Uteri, Fluor Albus, and all irregular and painful menstruation, and diseases of irritation of the female organs.
D Y FOOTE, M. D.,
Syracuse, N. Y.

Those needing such a remedy should inquire into the merits of this medicine, and by calling at the store of the undersigned can obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

WISCONSIN
Home Insurance Company,
MILWAUKEE, WISCONSIN
Office, No. 6 Kneeland's Block.

THIS COMPANY IS NOW PREPARED TO ISSUE Policies on
Fire, Marine and Inland Navigation Risks,
For periods of from one day to five years on Fire Risks, and on Marine for single trips or season
Insurance may be made in this Company upon the Cash or Premium Note Plan, either with or without Premium Notes.
This is a new Company organized the 20th of last month, and the Directors have received sufficient guarantee that the Company and its plan have been well received by the insuring public, from the fact that the Company has already issued upwards of 225 policies
Insurance will be made upon Vessels, Freights, Goods, Wares, Merchandise and other property against the perils of
Inland Navigation and Transportation,
and upon Dwelling Houses, Stores and other Buildings, Household Furniture, Merchandise and other property against
LOSS OR DAMAGE BY FIRE.
N. B.—Only First Class risks will be taken by this Company, and at such rates as may be deemed by the Directors adequate to the risk
A continuance of the patronage of the insuring public is very respectfully solicited

Highly Important to Farmers.
The only Exclusive Farmers' Insurance Company in the West.

THE MADISON MUTUAL,
Located at Madison, Wisconsin.

THIS COMPANY CONTINUES TO TAKE RISKS upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible Companies.
All losses promptly paid at the office as soon as proof is made thereon. [illegible]
We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses, but your own of the same class, and all will be on an equal footing.
Experience has shown that two-thirds if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops, and such like property. In this Company all such property is rejected POSITIVELY by LOCATING FARM ALONE
Farmers, look to your own interest, and insure in a Farmers' Company
We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last *fourteen months we have not had a single dollar loss, though doing a large and prosperous business,* which we believe to be without a parallel in the history of insurance

MILWAUKEE MUTUAL
FIRE INSURANCE COMPANY.
Office in Martin's Block, Milwaukee.

Capital over $165,000—in Cash and Premium Notes.

THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire.
The advantages offered are security beyond the circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 2000 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. Its business is principally confined to this State.

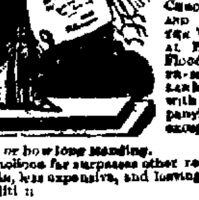
CELEBRATED CATHOLICON,
For the Relief and Cure of Suffering Females.



IT STANDS PREeminent for its curative powers in all the diseases for which it is recommended usually called

Female Complaints.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION, AND ULCERATION OF THE WOMB; INCIDENTAL HEMORRHAGE, or Flooding; PAINFUL, SUPPRESSED AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted,) no matter how severe or how long standing.

The Catholicon far surpasses other remedies, in being more certain, less expensive, and leaving the system in a better condition

I have no hesitation in saying Dr. Marchisi's Uterine Catholicon is invaluable in uterine diseases generally. I have used it in Fluor Albus, Amenorrhœa, Prolapsus Uteri, and in cases of extensive ulceration of the vagina and os uteri. It is worthy of the notice of the Faculty

I must say, from my own experience and personal observations in my practice, it has proved to be the best and safest remedy for the difficulties for which it is recommended, viz: that of female weakness, such as Prolapsus Uteri, Fluor Albus, and all irregular and painful menstruation, and diseases of irritation of the female organs.

LETTERS FROM KANSAS.—We republish the first [illegible] Kansas correspondent's excellent letter [illegible] to give it entire in to-day's paper. [illegible] interesting to our readers generally, but especially valuable to those of the number who think of emigrating to Kansas. The information which it contains is very full and entirely reliable. We think the *Sentinel* can fairly claim to have published the *best* series of Letters from Kansas that have appeared in any paper, East or West.

DIVIDING THE WARDS.—The Common Council have adopted a memorial to the *Legislature*, asking the passage of an act to divide the First and Second Wards and erect two new Wards. This has been deemed necessary by the large size and rapidly increasing population of those two Wards. They are each more than twice as large as the [illegible] Fifth. We hope that the Legislature will pass the act at once.

NEW YORK MONEY MARKET.—The *Tribune* of [illegible] says—"The ease in the money market [illegible] increases, and we hear of "gilt-edge" paper 60 days and under passed in the Banks to-day at 5 per cent. The discount brokers have rather a free supply of six months paper, but short paper is scarce, and first class goes at 6a7 per cent. freely. Call loans, 5-6 per cent, and pressed upon favorite borrowers."

A New Democratic Principle.

The *News* announces the forthcoming introduction of a new principle into the Democratic platform. The said platform "has been sadly damaged at the recent elections, and without the addition of some new elements of strength, will [illegible] the Presidential contest of [illegible], the next, like all the recent improvements to the Platform has special reference to the [illegible] of Slavery. It is nothing less than the annexation of Cuba and the addition of two or three Slave States to our Free Confederacy. The *News* says:

> "We shall not be surprised if the question of [illegible] Cuba [illegible] in the next Presidential campaign. The Democracy are already breaking [illegible] in its favor. We perceive that at the [illegible] meeting of the Democracy, at Tammany Hall in New York, on the 7th inst., at which [illegible], of Michigan was the principal [illegible], resolutions [illegible] strong and open [illegible] annexing "Queen of the Antilles" were put forward as an article of the Democratic faith. We apprehend the National Democratic Convention at Baltimore in 1856, will adopt a similar resolution.

Very [illegible] they will, and if done, at the same time, the cool proposition of our three Ministers, Messrs. BUCHANAN, MASON and SOULE, submitted to the Federal Government in their famous Ostend despatch. That was briefly this:

> "After we shall have offered Spain a price for Cuba far beyond its present value, and this shall have been refused, it will then be time to consider the question, does Cuba in the possession of Spain, seriously endanger our internal peace and the existence of our cherished Union? Should this question be answered in the affirmative, then by every law, human and divine, *we shall be justified in wresting it from Spain, if we possess the power.*"

In other words, if Spain wont sell Cuba, the United States have the right *to take it*. This is the new Democratic principle which is to be made "the issue," the *News* already warns us, in the next Presidential campaign.

With all deference to our contemporary, this is not a "new" principle. It is as old as Theft, Robbery and Piracy. It is the mere repetition of the Highwayman's and Cutthroat's cry to "Stand and deliver!" The Free, Christian, Enlightened Government of these United States—the Model Republic of the world—the City of Refuge for the oppressed of all nations—(Africa only excepted)—[illegible] Freebooter and Filibuster [illegible] means what we have failed to [illegible]. We think the spectacle of the United States, pistol in hand and bowie knife in girdle, paying the Bravo and trying to bully weak and decrepit Spain out of the covet[illegible] Island of Cuba, would be exceedingly encouraging and refreshing to all believers in Human progress and in the Moral and Religious superiority of the Nineteenth Century to its "illustrious predecessors!"

RACINE AND BELOIT R. R.—The Racine *Advocate* [illegible] confidence that passenger [illegible] on this road before the 1st [illegible]. The same paper complains that the Wisconsin has taken especial pains to depreciate the credit of the Racine and Beloit R R. [illegible], or ignore its existence altogether," [illegible]

> "Our Milwaukee neighbors may live to see the day when they will regret the course they are now pursuing towards this city."

Whatever may be the shortcomings of the Wisconsin in this particular, it is very certain that the Milwaukee Press generally have dealt fairly and [illegible] by the Racine and Beloit R. R. [illegible] and enterprises of the sister city—We can, at least, answer for the *Sentinel*, that we have omitted no proper occasion to say a good word for the road itself and for Racine, and that we always do so readily and cheerfully. We [illegible], that our friend of the *Advocate* has no good ground of complaint against his "Milwaukee neighbors."

HIGH PRICE FOR WHEAT.—A load of 60 bushels of prime winter Wheat, raised in Waukesha County, was bought at the Mills, yesterday, for $1,52. This is the highest figure yet reached during the present year, tho' the prospect now is that still higher rates will be paid before long.

☞ The telegraph "went down" again, yesterday on purpose, of course, to worry the *Wisconsin*, and [illegible] it accordingly from that paper in this wise:

> "If the [illegible] wheezy old telegraph line [illegible] to-day, we may have news from one or two of these steamers, with news and eleven days later news from the seat of war."

We are credibly informed that the telegraph was not able to "get up" yesterday, but the above paragraph from the *Wisconsin* was too much for it, and it went "down" again.

THE [illegible] JAIL BREAKING.—The jury in the case of [illegible] Rycraft Bingham, et. al., acquitted the defendants not on the ground of an absence of proof, as to their actual participation in the rescue, but on the ground that the breaking of the jail [illegible] was a sudden [illegible] and not a *premeditated* one caused by the [illegible]. The instrument being [illegible] for this legal distinction being of some [illegible] in the case.—[News of yesterday.

The "decision" and the proof sustaining it are [illegible] as throwing some light on the [illegible] in the U. S. Court of Messrs. Booth and Rycraft where the great effort seemed to be [illegible] a "premeditated" rescue.

TWO MEN OVERBOARD.—The *Wisconsin* of [illegible] in referring to the veto of the bill for the Improvement of the St. Clair Flats, thus [illegible] two distinguished politicians overboard:

> "There is no doubt that this Veto annihilates [illegible] Michigan, because it was one of [illegible] measures, and the people of [illegible] him responsible for the conduct of this Executive chief. It is not necessary to [illegible], because he committed political suicide some time since."

From Madison.

EDITORIAL CORRESPONDENCE OF THE SENTINEL.

MADISON, March 13, 1855.

I notice, in an article in the *News*, the following sentences in relation to certain remarks of mine as to the action of the "Milwaukee Free Trade Association" upon elections in general, and our city election in particular:

> We have the assurance of the members of the Association that there was no concert of action to aid the election of the democratic nominee for Mayor, no agreement of the kind, and not one dollar subscribed by that Association for such purposes. * * * * We offset all these assurances against the simple declaration of the junior editor of the *Sentinel* who in the conversation to which he alludes with a member of the Association, we are assured, either labors under a misapprehension, or willfully misstates it.

Relative to the alternative supposition, that I "willfully misstated" the purport of the conversation, I have nothing to say; but, without having the letter referred to now before me, I only state that I wrote *exactly* the truth. The conversation was not a private one, but in the street, with half-a-dozen persons standing by, any or all of whom would confirm what I said. If any members of the Association in Milwaukee deny that "any money has been raised for such purposes" why, there is a question of veracity between them and the member with whom I conversed, which they must settle among themselves.

Our attached friend, Mr. Kilbourn, could not have carefully read the article in the *Sentinel*, in relation to some 90 pages of the *Documentary History*. As most people read it, it was a criticism upon the propriety of the insertion of those pages in the book, and not a discussion of the character of the Rock River Canal Co's claim. Whatever opinions any one may have upon that subject—and during the past few years the people have acquired considerable familiarity with it—it would seem as if there could be no difference of opinion upon the propriety or decency of inserting a lengthy argument on one side of a pending and doubtful claim in a volume of state history.

In Senate, this morning:

Mr. Clement introduced a resolution directing the Clerk to inform the State Treasurer of the passage of a resolution the other day, in regard to the state of the funds.

Bills were introduced by several members, none however of any general importance except one by Mr. Kelsey, to give the Swamp Lands to the counties.

The bill authorizing the taking of State bank bills for taxes was rejected.

In the afternoon the Senate was in committee on the Census Bill.

ASSEMBLY.—The only petition was one from Wm Welch, asking that the State refund to him for two pieces of Territorial scrip of 1846.

The Chief Clerk, through the Speaker, reported that he had conferred with the Postmaster of Madison, and that that officer is still willing to charge the postage to the State, but that he is obliged to make up his accounts for the 1st of April, and he had understood that there would be no money in the Treasury at that time. He requests that such action be taken as to secure the money when appropriated.

Judge Vilas introduced a bill providing that $1500 be retained in the Treasury to meet these appropriations, and this bill was passed at once.

The only other bill introduced was also by Mr. Vilas, to pay W. Welch $67,08.

Three or four standing committees reported back bills in their charge.

Mr. Randall arose and desired the privilege of making a personal explanation. It will be remembered that in reporting last week the plan devised by the Joint Committee for investigating the affairs of the State, Mr. Randall said that the plan was one suggested by Judge Dunn, of the Senate, and I mentioned this statement in one of my letters. Upon this there followed some articles in the Milwaukee papers on the subject and in one of these, the *Sentinel* stated that Judge Dunn was the author of the plan. This statement the *Argus & Democrat* of this place denied on Saturday with considerable harsh language, and again denied the statement yesterday. The *Argus* stated that Judge Dunn had "found the plan already perfected by the majority of the committee, and that they were settled in the intention to recommend the appointment of committees to sit after the adjournment;" also that "the concessions which they (the committee) yielded, were yielded with a sorry grace" &c.

Mr Randall said that this was a matter which concerned others besides himself, and he asked his colleagues of the Assembly on that committee whether the assertions in the *Democrat* were *true*. These gentlemen, Messrs Field and Van Nostrand, pronounced them false, and both stated that Judge Dunn originated the plan; as also that two other assertions to the same general effect as above were false. Mr Van Nostrand said further that "the committee met once before Judge Dunn was with them, and at that meeting they were generally of the opinion that there should be an early adjournment and an extra session of a week or thereabouts to act upon the report of the committee. That at the second meeting Judge Dunn was present, and suggested this plan, and the rest of the committee assented to it. That this plan *was* the one recommended by Judge Dunn, his words being "appoint the committees and let them report to the Governor," and further, that "the strictures of the *Argus & Democrat* were made upon good democrats, who were always true to their party, which that paper was *not*."

With this ended the explanation.

After the passage of four bills, the titles of which are already sent, there came up, on its third reading, a bill introduced by P. H. Smith, of Outagamie, contemplating a decision of the question as to the right of students to vote where they are attending institutions of instruction; the decision being *against* the right. Messrs. Smith, Vilas, Rose, and Martin sustained the bill and Messrs. Virgin, Gary, and Pratt opposed it as making a distinction against students, while no other class was marked out for such exclusion. Mr. Bennet thought there was a "cat under the meal" and that the meal was thin, and moved the indefinite postponement of the bill which was *carried*, 38 to 27, the ayes all Republicans except Mr. O'Neil, the noes all democrats except Messrs. DeWolf and Thompson, independents.

On motion of Mr. Rose, the vote refusing to pass the bill concerning a Canal on Lake Poygan was tabled on a motion to reconsider.

The bill appropriating $30 each to the State Prison visiting Committee was passed.

The Assembly took up the bill providing against the circulation of depreciated currency and after amending the second section, so as to make the foreign bills redeemable at ½ per cent in New York, or redeemable at par in Milwaukee, Chicago, or St. Louis, ordered the bill engrossed.

Nine bills were disposed of in Committee of the Whole, and one, a bill organizing a Municipal Court in Watertown, was passed, having been amended at the request of some of the Dodge and Jefferson County members.

In the afternoon:

The bill providing for limiting the forfeiture in usury cases to the interest, was referred to a Select Committee, the bill relating to pre-emption on swamp lands to another, and the death penalty bill to the Judiciary Committee.

The bill providing for a Quarterly Statement of the condition of the Treasury, and prohibiting traffic in the state funds, was *passed*.

Bills were introduced by three or four members, and the Assembly went into Committee of the Whole, Mr. Randall in the chair, and finished the general file, the House ordering 13 bills to a third reading.

Two bills *passed*:

Authorizing Watertown to aid the R. R. V. U. R. R.

Authorizing a dam over the Pecatonica river.

Just as the Assembly was ready to adjourn, the Speaker stated that he had a communication from the Lunatic Asylum Commissioners. It was read. It was very long, the following being its principal points:

That the examination by the Investigating Committee was private and *ex parte*; that no notice had been given or request made of the Commissioners for their attendance; that *they* had asked that they might be present and cross examine the witnesses; that they believe the committee did not intend to conduct the examination fairly; that the appointment of one of them was an unfit one, as he had declared his wish "to break up the contract, right or wrong;" that they did not believe the report would be made with a view to justice; that the resolution offered by Mr. Howell in Senate was rejected through misapprehension; that on Saturday they sent to the Committee, asking an opportunity to review the testimony &c, but were not allowed to see or hear the evidence; that they have no faith that the majority of the committee have any desire to do justice, &c., &c.

Mr. Gary said that he should like to hear from some member of the Committee whether the details of the Commissioners' complaint were correct:

Mr. P. H. Smith, Chairman of the Committee, said that, whether intentionally or not he would not say, but the statements of the Commissioners were *untrue* in almost every particular, *from beginning to end*. That in only one instance, through the examination, had any of them been prevented from being present; and in that case, as a witness was to be examined whose evidence it was thought might reflect upon the Commissioner present, he was desired to withdraw, the object being out of delicacy to him, to keep all idea of any suspicion from him, if nothing should be elicited; but as the testimony *did* implicate him, he was sent for so that he might cross examine the witness, and did do so. That the Committee had sent for the Comm'rs many times; that these last have come and staid as long as they pleased, and have hurried the Committee along, as they wished to go; that the Committee on one occasion sat from 3 o'clock to 7 P. M., receiving the testimony of the Comm'rs alone; that the latter have never made a request which has not been granted; that on Friday last, the Committee thought that they had got through, but devoted Saturday afternoon to hearing counsel for the contractor; that, after receiving that afternoon the request from the Commissioners, the Committee sent word that they would meet them last evening and again on Monday afternoon; that at those times the Committee met, but no Commissioner came near them.

Mr. Smith concluded this explicit answer to the communication, by stating that he believed its only object was that the request might be denied, so that the Commissioners might make Buncombe out of the refusal.

Mr. Gary said that the document contained violent aspersions upon the character and motives of the Committee, in whom he had the utmost confidence. He thought that further notice ought to be taken of it, and moved its reference to the Committee of Investigation.

Mr. Randall said it was desirable that the document should have been more explicit on one point, as to the alleged declarations of a member of the committee. That neither himself, nor, he believed, any other of the committee had expressed an intention "to break the contract, right or wrong," but that after learning its character, and in view of the condition of the state, he had said, that it would be best for the State to repudiate the contract, if it cost $50,000. The object of the movement now seemed to be to delay action till too late, and to fasten this immense liability upon the State, beyond relief.

Mr. Field, another member of the Committee expressed his full concurrence in the declarations of the Chairman; and added, that, on the occasion when the Commissioner was implicated by a witness, the cross-examination only placed him deeper in the mire.

Mr. Goss, also a member of the Committee, said that the intention of the Committee had always been to give the Commissioners an opportunity to hear the testimony; so little truth was there in the charge that the examination was to be unfair, and *ex parte*.

The reference to the Committee was made, and the House adjourned. W. H. W.

It is conjectured by the New York papers that the *Pacific* did not arrive out in time to sail on her advertised day. The *Arabia* was not to sail till the 2d of March and is in her 13th day out to-day. The *Hermann* is a slow coach and usually 15 or 16 days in coming.

LETTERS FROM KANSAS.—No 11.

LAWRENCE, KANSAS TERRITORY,
March 1st, 1855.

Messrs. Editors:

Want of time, and indisposition for two weeks past, has prevented my sending you my usual correspondence. As I am in the frequent receipt of letters of inquiry in reference to this territory, and the means of getting here, with the things necessary to be brought, &c., I will in this place, if you please, take occasion to answer some of these enquiries. Here is a letter from Chicago which, as it contains about as comprehensive a list of questions as any I have received, I will take as my guide. I have received similar questions from Milwaukee:

"How far from St. Louis are you located and in what direction?"

In a westerly direction, 450 miles from St. Louis up the Missouri River to the mouth of the Kansas, thence 75 miles up that river by water, or 50 by land, to this place. Boats will be running to this place and above immediately on the opening of navigation, say in two weeks or less from this date.

"In what portion of the territory can we find a good location?"

In any portion, not embraced in Indian reservations. As good points as have been located and probably better, are open for location; and some of those first chosen, as possessing superior advantages, have been abandoned, as witness the famed city of Douglass, 10 miles above this place on the Kansas, which never contained but one house.

"At what season would you advise us to come?"

Just as early as you can pick up your duds and start. We want you here at the coming election, in about two weeks, to vote for *freedom* and immediately thereafter to *work* for it without cessation, until its consummation—probably some few years hence. If this discourages you, you better not come, as those are needed here who are willing and *expect* to work for *Humanity*, at least a portion of the time.

"What is our best mode of travelling, and what route is the most expeditious?"

By railroad to St. Louis, and steamboat thence to this place, or any other on the Kansas river; or by team from Kansas, Mo., to the southern portions of the territory.

"Would you advise us to bring our women with us at first?"

By all means, especially if you come in the fore part of the season. Could you but witness the sorrows and lamentations—the feeling and appearances of perfect *abandon*, with knees and elbows boldly protruding, or striving to hide themselves beneath the overhanging and surrounding tatters—the apparent want of care as to personal appearance, or even, as is too often the case, of cleanliness—the vexatious loss of time and temper expended to cooking and other household duties, &c., manifested by those of us who have left *their* wives behind them, I am sure you would never venture on the experiment; at least *they* will never repeat it. The women amongst us appear to have withstood the hardships of pioneer life, thus far, quite as well as the men, and in a manner to shame some of them at least. Bring on your women. The summer season is more favorable than the winter.

"What had we best bring with us?"

Everything you can apply to *use*. Nothing will come amiss, as nothing is manufactured here yet, and scarcity and high prices must prevail for some time to come. Tools and implements of agriculture and the trades household goods of *necessary* kinds, will be required. The country will abound with provisions, and merchandise of dry goods, groceries, &c., at reasonable rates, just as fast and as far as they will be required by the settlers. No doubt there will be abundance of teams of horses, mules and oxen, and also cows and other live stock, driven in from the adjoining States, as fast as required, and competition will keep them at reasonable prices, if not they can be readily procured there by going for them. Prices there now are very low and falling, much lower than they were last fall.

"How many would be best to come, and how many are actually necessary to success?"

To the first part I will answer, five hundred thousand, for the first installment, to be followed up as fast as circumstances will permit; to the last part, I am not certain that I understand to what "success" is referred. If individual wealth is meant, any man who has ordinary faculties and common energy, can become independent by going on to, and preempting 160 acres of as good land as lies out of doors, or mechanical and other labor is, and will be, in good demand at remunerating prices.

"What kind of mechanics are most needed, and what proportion of each?"

Of course houses are first to be built of wood, stone concrete, gravel wall, brick, logs, and perhaps even sods. Then farming utensils, household stuff of all kinds, and finally the luxuries. In the meantime we are, even now, in pressing want of shoemakers and tailors. Send on long on *all kinds*, and if there should be a superfluity of some kinds, they will find they were never in better luck than when they had an opportunity to step out and take up a *farm*.

"What is the nature, strength, &c., of the soil."

It is generally a clay loam or marl, resting on a clay subsoil, with a light friable surface of vegetable mold from one to three or four feet in depth, yielding a most luxuriant growth of vegetation, from the grass that matts the surface, to the majestic forest, when left free from the destruction of fires, to perfect itself.

"Situation of towns and cities already located as regards access to conveyance?"

There are a number of *cities* located on the Missouri river, above the mouth of the Kansas, the most important of which is Leavenworth.—On the Kansas are Lawrence, Topeka and Wauponsa, located and settling under the auspices of the Emigrant Aid Society of Boston. Also Tecumseh, LaCompte, Pawnee, Fort Rielly, Fort George, and others; some under the auspices of the slaveocracy, others of northern freemen. The Emigrant Aid Society have also by their agents laid out a new town on the Osageriver, some distance south of us. I do not know that the Osage is navigable to that point. All on the Kansas are accessible to steamboat navigation. No other towns of importance laid out.

"Is the land generally high or low, level or hilly?"

High rolling prairie, except upon the river bottoms, which are said to be sometimes overflowed.

"Have you prairie or timber land, and in what proportion?"

Timber along the river bottoms and in the ravines, none upland, say about one-twentieth part timber.

"What does the soil most easily produce?"

Corn will probably be the great staple; but all kinds of grain of the Middle States can be raised in abundance; and the river bottoms, which are in some places miles in width, are, from the extraordinary richness of the soil and other conditions admirably adapted to the culture of hemp. Fruit is excellent. Some of the finest apples I ever saw I have eaten here.

"What is the general character of the climate?"

Like the Middle States of the same latitude, but less rain, I think, in summer and snow in winter. We have had but seven inches of snow altogether during the past winter, and not more than two inches of rain since we came here, the first of September last. The rains are confined mostly to the spring as I understand, but the soil is admirably adapted to the retention of moisture for the uses of vegetation, so that our people made good hay from the prairie grass long after our arrival last fall, notwithstanding the severe and protracted drought of last summer. The summers are not so warm nor the winters so cold as in the same latitude east; but in consequence of its elevation and its proximity to the Rocky Mountains it is subject to high winds and sudden changes of temperature.

"What is the character of the people who are settling in?"

The largest representation from any one State is, as yet, from Missouri, many of whom, I cannot estimate the proportion, are for a *free State* in Kansas. Many are the mere tools of the slave owners sent in to prepare the way for them to bring on their slaves, which they dare not do now. The largest portion of the northern emigration is from the Western States, men of good practical common sense, but wanting in the education and refinements of the east. The eastern emigration, that portion of it which remains here after the bran has blown out and gone back is "good wheat." For instance, it has been remarked by capable judges that Lawrence contains more intelligence and talent than any other place they ever saw. The settlers from Missouri present the characteristics inseparable from a slave cursed State, where common schools find no support and general education is neglected.

"Have you any Indians, and are they hostile or civil?"

We have several tribes of Indians in the territory, who have made reservations of land in their treaties with the government, to the extent of 200 acres for each man, woman and child. Many of them are in quite an advanced stage of civilization, and all, so far as I know, perfectly friendly and civil.

"What are the prospects in regard to the success or defeat of Slavery in Kansas?"

In my opinion, it will meet with a temporary success so far as the coming election and action of the first Legislature can effect it; and possibly the second, though I think not. But that it will adopt a free constitution, I have no doubt, at least if the indications of a free emigration from the northern States are not all false.

"Have you any colored persons among you, and what is the general feeling towards them?"

There are but few, and the general feeling is hostile. The *free-state* Missourians, and most of the Southern Illinoisans and Indianians are bitterly opposed to their admission into the Territory, and I doubt not the "black laws" of Illinois and Indiana will be enacted here in case a free Constitution is adopted. Already the indications are abundant of northern and *eastern* abolitionists forsaking principle and declaring for this abomination, in order to promote opportunities for them to serve their country in its Legislative Halls!

"From what portions of the country are you receiving additions to your population?"

From all portions. (See above.)

"Have you water privileges suitable for mills?"

Not in this section of the country. I am informed there are some farther west, towards the head waters of the Kansas and on the streams flowing into it. Also south of here on the Osage and its branches.

"What are the facilities for building?"

A sufficiency of timber for building purposes, with plenty of stone jutting out from the bluffs and summits of the high lands in all directions, good clay for brick, and materials for concrete or gravel walls.

"What kind of timber have you suitable for building purposes?"

Oak, black walnut, hickory, hackberry, cotton wood, elm, ash—"or for sawing into timber?" Black walnut, cotton wood and oak. Cotton wood is most abundant but makes inferior lumber. It resembles the poplar or whitewood of the Northern States, but is more affected by the changes of weather.

"Could lumbering be made a good business, and is there sufficient water in the river for rafting?"

There is not a sufficient quantity of timber for lumbering purposes.

"Have you any stone suitable for lime and general building purposes?"

Abundance.

"Is there any coal in the Territory?"

Yes, cropping out from the surface in all parts of it. No mines have been worked yet.

"Is your prairie stocked with wild game, and your streams with fish, and of what sort?"

Wild game is not very plenty—we have a few deer and turkeys. Prairie hens and quail are quite plenty, and will be more so as soon as grain is raised. There are plenty of fish in the Kansas, though but little has been done in catching them. We have no seins here yet.

"What is the quality of the water—have you wells or springs?"

Both—the former by digging 30 to 40 feet.—Springs are not very numerous. The water is pronounced excellent, but is generally 'hard.'

"Do you use horses, mules, or oxen; can they be obtained there and at what prices?"

We use all, and in the neighboring state of Missouri they can be purchased at reasonable rates. I do not know the present prices, but understand from the papers that they have declined considerably lately.

"What is the prospect in general of *making money*?"

Good—see above.

"What will the journey cost each of us to reach your place and do we want much money when we arrive?"

I think the fare from Chicago to St. Louis, by Railroad via Alton, is $7,00. By calling on B. Slater, No. 27 Levee, St. Louis, an agent of the Emigrant Aid Society, passage from there to Kansas, Mo., can be had for $10,00; from Kansas to this place by team, $1,50. A steamer is advertised to leave St. Louis for this place and above, on the opening of navigation, fare not given—B. Slater, St. Louis, Agent. Bring all the money you have; you can use it to better advantage here in making your own improvements, or in speculative investments, than any where else. Capital is very much needed here now and will pay a good return.

"What rules and regulations would you recommend us to adopt, for the government and well being of a company of 50 men?"

If you wish to settle in a community by yourselves, circumstances will suggest to you the best form of organization. I am not prepared to advise. On the passage, you need to choose some one of your company as your agent, to direct matters, look after baggage, &c., and with the christian rule of mutual good will and forbearance, you will get through without trouble.

"In what location can land be found in large quantities, suitable for the accommodations of 50 or 60 families?"

In almost any section of the territory; the valley of the Kansas, up to some 70 or 80 miles above here, is too well taken up to admit of such a location exclusively, although there are abundance of "claims," both single and in smaller numbers than named above, to be had along the whole distance.

"How much can a man claim?"

160 acres.

"And can a married man claim more than a single one?"

No. White male citizens of the age of 21, widows, and heads of families are entitled to pre-empt 160 acres each.

The census of the territory, peparatory to an apportionment for the legislature has been taken, but the returns are not all made yet. There are probably some 6000 to 7000 inhabitants in the territory and over 3000 voters. Large numbers of Missourians are already coming into the territory, in anticipation of the election, which is expected to take place about the 20th inst. It is reported to-day that a company of 100 are encamped in our district, upon the Waukarousa. If so, they will not rest satisfied with a less attempt than the absolute carrying of this, the strongest free state district in the territory. If they succeed *here* I don't know where we can succeed, and we may expect a legislature like a jug handle, all on one side. The Governor has given assurances that the election, so far as he can determine it, shall be the free expression of the actual voters of the territory, and that in all districts where illegal voting is done, if the proof is presented to him, a new election shall be ordered, the same to be repeated until the evil is corrected. This policy strictly carried out, with the exercise of a little policy on the part of the Governor in fixing the times, would so embarrass the foreign voters and their masters, and render the speculation so expensive to them, that they would be forced to abandon it as a losing game, with no chances to win. But whether it will be enforced or not, is a question. The pro-Slavery influences around the Governor, are most powerful.

The Judicial organization of the Territory has just been effected by the Governor, dividing it into three districts, and assigning one to each of the judges appointed by the President, as follows; to Chief Justice S. D. Lecompte the eastern district, the court to be held at Leavenworth; the middle to Justice Rush Elmore, at Tecumseh; the western to Justice S. W. Johnson, at Pawnee, the new town of the Governor's and the prospective capital, near Fort Reilley.

We have had about one week of the coldest weather of the season the thermometer standing on Monday morning last at 4 deg. below zero.—It is now pleasant again, with a south wind.

We are still embarrassed in consequence of the obstruction of the mails in Illinois. I yesterday received Milwaukee and Chicago letters of Jan'y 27th, and our newspapers are behind still. No N. Y. Tribune later than Jan'y 26, and but few eastern papers of any kind. I have received but two Sentinels since the commencement of the storm, Jan'y 29th, and should not be surprised if the accumulated paper mails for this place should by some means fail entirely to get through Missouri, we have become so exceedingly obnoxious to them on account of our free soil predilections. They seem really to consider us a band of marauders bought up and sent on here by the Emigrant Aid Society for the express and only purpose to commit depredations upon them, and steal and run off with their *live property*; when I can assure them we intend nothing of the sort, and nothing will tempt us to go over there and regulate their affairs unless it be to repay them for their kind attentions in coming here to attend to ours. We feel very grateful for their exceeding interest in the management of our affairs, and I know of no way but to repay them in kind, for we dislike exceedingly to feel under obligations to our neighbors when we have the means and opportunity to reciprocate.

Yours, &c., E. D. L.

CASH SALES IN THE PINERY.—The Stevens Pt. *Pinery* of the 8th, says that the cash sales at the Land Office in that place for the month of February, amounted to $8,389 12—the heavy snows having interfered with the looking out of lands. Purchasers are flocking in this month, and commencing in towns 25 and 26 north, in timber and openings.

NESHOTO MILLS.—The Manitowoc *Herald* has a detailed account of these Mills, the property of PENDLETON & Co., of Racine. They are distant between 5 and 6 miles from Manitowoc. Three upright saws, besides lath saws, are employed in the manufacture of lumber, and both steam and water power used. The amount of Lumber manufactured at these mills, the past year, was three and a half millions of feet, and the amount of capital invested $125,000. The proprietors, says the *Tribune*, have entered within eighteen months 10,000 acres of pine land on the river above, they are now building a powerful Steam Tug for their own use, of sufficient power to tow vessels or rafts. They are building a pier at Two Rivers which will cost about $10,000. The logs they will have on hand this spring will exceed $45,000 in value, and our informant was shown a pile of lumber, ready for shipment, containing 1,000,000 feet.

DREADFUL ACCIDENT.—We are pained to record the death by accident on yesterday, of George A. Mason, a son of Col. R. B. Mason of the Illinois Central R. R. Young Mason left this city on yesterday morning for Rockford, and when near that place, while looking out of the window of the car, his head struck against a post near the track, instantly killing him. He was a young man of twenty years of age, and of high promise. His body was brought in, last night, on a special train.—[Chicago Tribune, March 13.

AMERICAN HISTORY.

LIGHT ON AN OBSCURE QUESTION.

Who Framed the Ordinance of '87?

[CONTINUED.]

The next effort, in the order of time, to establish a government for the Territories, is thus noticed in the Journal of Friday, 29th September, 1786: "Congress proceeded to the consideration of an ordinance for the government of the Western Territory reported by Mr. Johnson, Mr. Pinkney, Mr. Smith, Mr. Dane and Mr. Henry."—No previous reference to the appointment of this Committee, appears in the Journal. The House debated the report that day, and again on the 4th October, after which nothing further concerning it is recorded in the Journals; and the Congress expired by its proper limitation on Saturday, 4th November. On Monday, the 6th November, the new Congress met, but without forming a quorum, and none was formed till Wednesday, 17th January, '87. Mr. Gorham, Mr. King, Mr. Dane, were in attendance from Massachusetts. The House failed to elect a President on that day, and no quorum was obtained again until Friday, 2d February, when Gen St. Clair was chosen President. By an annual resolution the unfinished business of the old Congress was continued in the new Congress, and accordingly in the Journal of Wednesday, 9th May, 1787, we find this entry: "Congress proceeded in the second reading of the ordinance for the government of the Western Territory."

It was debated that day, Mr. King and Mr. Dane being both present and voting, and was ordered to be transcribed and to be read a third time next day. It was, however, postponed on that day, and no more is heard of it. From Friday, the 11th May to Friday, the 6th July, no quorum could be had, and of course no business was done in Congress. Again, from Friday 6th, to Wednesday, July 11, the House was left without a quorum. On that day (11th) we find this entry in the journal, the Committee consisting of Mr. Carrington, Mr Dane, Mr. R. H. Lee, Mr. Kean, and Mr Smith, to whom was referred the report of a Committee touching the temporary government of the Western Territories, reported an ordinance for the government of the territory of the United States north-west of the River Ohio, which was read a first time, and ordered for a second reading next day.

There is no previous notice in the journal of the reference of this subject to a Committee, but it seems reasonable to assume that the report thus referred was that which had been under debate on 9th May, and the ordinance accompanying which was then ordered to be transcribed for a third reading next day; however that be, the ordinance read a first time on the 11th, was read a second time on the 12th, and on the 13th was adopted by the unanimous vote of all the States present, eight in number, viz: Massachusetts, New-York, New-Jersey, Delaware, Virginia, North Carolina, South Carolina, Georgia, and of every member save Mr. Yates of N. Y., and so far as appears from the journal, without any debate, or attempt to amend or change it, and this was the famous *Ordinance* of '87, the great *charter of freedom* for the great North-Western Territory, now composing, with additions since obtained from the Indians, six free States.

This ordinance for the government of the territory of the United States north-west of the River Ohio, after prescribing with minuteness the mode of obtaining and transmitting land, of appointing magistrates, establishing laws, &c., &c., sets forth the following articles of compact, with this recital:

And for extending the fundamental principles of civil and religious liberty, which form the basis whereon these republics, their laws and constitutions are erected, to fix and establish those principles as the basis of all laws, constitutions, and governments, which forever hereafter shall be formed in that territory; to provide also for the establishment of States and permanent governments therein, and for their admission to a share in the federal councils on an equal footing with the original States at as early periods as may be consistent with the general interest:

It is hereby ordained and declared, by the authority aforesaid, that the following articles shall be considered as articles of compact between the original States and the people and States in said territory, and forever remain unalterable, unless by common consent, to-wit:

ARTICLE 1. No person demeaning himself in a peaceable and orderly manner shall ever be molested on account of his mode of worship or religious sentiments in the said Territory.

ART. II. The inhabitants of the said Territory shall always be entitled to the benefit of the writ of habeas corpus, and of the trial by Jury—of a proportionate representation of the people in the Legislature, and of Judicial proceedings according to the course of the common law; all persons shall be bailable, unless for capital offenses, where the proof shall be evident or the presumption great. All fines shall be moderate, and no cruel nor unusual punishment shall be inflicted. No man shall be deprived of his liberty or property but by the judgment of his peers, or the laws of the land; and should the public exigencies make it necessary for the common preservation to take any person's property, or to demand his particular services, full compensation shall be made for the same. And in the just preservation of rights and property it is understood and declared that no law ought ever to be made or have force in that Territory, that shall in any manner interfere with or affect private contracts or engagements, *bona fide*, and without fraud previously formed.

ART. III. Religion, morality, and knowledge being necessary to good government and the happiness of mankind, schools and the means of education shall forever be encouraged; the utmost good faith shall forever be observed toward the Indians; their lands and property shall never be taken from them without their consent, and in their property rights and liberty they never shall be invaded nor disturbed, unless in just and lawful war authorized by Congress; but laws founded in justice and humanity shall from time to time be made for preventing wrong being done them and for preserving peace and friendship with them.

ART. IV. The said Territory, with the States which may be formed therein, shall forever remain a part of this Confederacy of the United States of America, subject to the articles of confederation and such alterations therein as may be constitutionally made, and to all the acts and ordinances of the United States in Congress assembled conformable thereto. The inhabitants and settlers in the said Territory shall be subject to pay a part of the Federal debts contracted, or to be contracted, and a proportional part of the expenses of Government, to be apportioned on them by Congress, according to the same common rule and measure by which apportionments thereof shall be made on the other States; and the taxes for paying their proportion shall be laid and levied by the authority and direction of the Legislatures of the District, or Districts, or new States, as in the original States, within the time agreed upon by the United States in Congress assembled. The Legislature of those Districts or new States shall never interfere with the primary disposal of the United States in Congress assembled, nor with any regulations Congress may find necessary for securing the title in such soil to the *bona fide* purchasers. No tax shall be imposed on lands the property of the United States; and in no case shall non-resident proprietors be taxed higher than residents. The navigable waters leading into the Mississippi and the St Lawrence, and the carrying places between the same, shall be common highways and forever free, as well to the inhabitants of said Territory, as to the citizens of the United States and those of any other State that may be admitted into the Confederacy, without any tax, duty, or impost therefor.

ART. V. There shall be formed in said Territory not less than *three* nor more than *five* States and the boundaries of the States, as soon as Virginia shall alter her act of cession, and consent to the same, shall become fixed and established as follows *to wit*: The Western State in the said Territory shall be bounded by the Mississippi, the Ohio and the Wabash Rivers; a direct line drawn from the Wabash and Fort Vincents due north to the territorial line between the United States and Canada, and by the said territorial line to the Lake of the Woods and Mississippi. The Middle State shall be bounded by the said direct line; the Wabash from Port Vincents to the Ohio, by a direct line drawn due north from the mouth of the Great Miami to the said territorial line and by the said territorial line. The Eastern State shall be bounded by the last mentioned direct line, the Ohio, Pennsylvania, and the said territorial line; *Provided*, however, and it is further understood and declared, that the boundaries of these three States shall be subject so far to be altered, that if Congress shall hereafter find it expedient, they shall have authority to form one or two States in the part of the said Territory which lies north of an east and west line drawn through the southerly bend or extreme of Lake Michigan; and whenever any of the said States shall have 60,000 free inhabitants therein, such State shall be admitted by its Delegates into the Congress of the United States, on an equal footing, in all respects whatever, with the original States; and shall be at liberty to form a permanent Constitution and State Government, provided the Constitution and Government so to be formed shall be Republican, and in conformity to the principles contained in these Articles, and so far as it can be consistent with the general interests of the Confederacy, such admission shall be allowed at an earlier period, and when there may be a less number of free inhabitants in a State than 60,000.

ART. VI. There shall be neither slavery nor involuntary servitude in the said Territory, otherwise than in the punishment of crime, and whereof the party shall have been duly convicted; provided, always that any person escaping into the same from whom labor or service is lawfully claimed in any one of the original States said fugitive may be lawfully reclaimed and conveyed to the person claiming his or her labor or service as aforesaid.

Be it ordained by the authority so aforesaid,—That the resolution of 23d April, 1784, relative to the subject of this ordinance, be and the same are hereby repealed and declared null and void:

Mr. King, although a member of the Congress which passed this ordinance, was not present at the time, having left his seat in Congress on the last day in May, when a quorum was had, (the 11th,) and proceeded to take his place as a member of the Convention for forming the Constitution of the United States, which was to assemble in Philadelphia on the following Monday, 14th May. But the debate on this ordinance would seem to have taken place before it was recommitted to Mr. Carrington's Committee, of which Mr. Dane was a member; for, after the report of it back again by this Committee, no debate was had—the ordinance had its three separate readings on three successive days; of course, therefore, all the details and all the principles had been settled before, and during the previous discussion, Mr. Jefferson, for whom the chief merit of this ordinance is claimed, was not in the House, nor in the country during this discussion; and a comparison of his resolutions of April, '84, given above, with the Ordinance of "'87," will show how much more copious, comprehensive and far-reaching are the wise and beneficent provisions in the latter.

Of many of these provisions a large share may be claimed as the suggestion, or the work of Mr. K., and especially the great and desirable one rendering the soil forever incapable of Slavery. As this is the great distinction of the ordinance, it shall be examined thoroughly. The proviso prepared by Mr. Jefferson in 1784, and voted for by him throughout and against the voice of his colleagues, was in these words. "That after the year 1800 of the Christian Era, there shall be neither Slavery nor involuntary servitude in any of the said States, otherwise than in punishment of crimes whereof the party shall have been convicted to have been personally guilty." This proviso, one of those which were to be fundamental articles of compact, unchangeable, except by the consent of both parties was, as has already been stated, struck out on the 19th of April, the residue of the ordinance being adopted on the 22d. Mr. Jefferson, a few days afterward, vacated his seat in Congress, and Mr King as yet had not sat there at all. His first appearance in Congress was in Dec., 1784. In the course of the ensuing spring, the bill for ascertaining the best mode of locating and disposing of the Western lands became a subject of discussion, and warmly enlisted Mr. K's attention and interest, as expressed both by the record of the Journal, and more strikingly, by the correspondence (of which the originals are in my hand) with Elbridge Gerry, Timothy Pickering, and other leading men of that day. It is foreign to the purpose of this discussion to enter into the general scope of this correspondence, and it is only referred to now in order to bring out of it the proof of how early and how earnestly Mr. K's attention was turned to the duty of preventing the spread of Slavery.

Under date of Philadelphia, March 8, 1785 Timothy Pickering thus writes to Mr. K, then attending Congress, in New York.

"Yesterday I was favored with a letter from Mr Gerry, including the draft of ordinance for ascertaining the mode of locating and disposing of lands in the Western Territory, and desiring me to communicate to you such thoughts on the subject as may be judged to have a beneficial tendency."

Mr Pickering goes on to suggest at considerable length, and with thorough knowledge, various provisions which should be embodied in such a law, and closes his letter with this reference to Mr. Jefferson's resolution of April, 1784, and especially to the provision of freedom:

"There is an article in the report of the Committee on which that act was made I am extremely sorry to see was rejected. The Committee proposed that after the year 1800 there should be no slavery in the new States. I hardly have patience to write on a subject in which what is right is so obvious and just and what is wrong is so derogatory to Americans above all men—so inhuman, so iniquitous in itself."

In a still longer letter, written on the evening of the same day, 8th March, 1785, (the two letters filling eleven pages of foolscap paper,) Mr. Pickering thus reverts to the topic of Slavery.

"In looking over the act of Congress of April 23, 1774, (Mr. Jefferson's) and the present report of an ordinance relative to these lands, I observe no provision is made for ministers of the gospel, nor even for schools or academies. The latter might have been brought into view; though, after the admission of Slavery, it was right to say nothing of Christianity. Yet so glaring an inconsistency would not have occasioned much surprise. It is easy to be inconsistent. Congress once made this important declaration—that all men 'are created equal, that they are endowed by their Creator with certain inalienable rights, that among these are *life*, *liberty* and the *pursuit of happiness*'—and these truths were held to be self evident. These great truths were echoed through the United States; nevertheless a proposition for preventing a violation of these truths, in a country yet unsettled, and from which such violence might easily have been excluded, did not obtain. What pretence (argument there could be none) could be offered for its rejection? I should, indeed, have objected to the period proposed (the year 1800) for the exclusion of slavery; for the admission of it for a day or an hour ought to have been forbidden. It will be infinitely easier to prevent the evil at first than to eradicate it or check it at any future time. How would Congress wish these new States to be settled? By slaves or by freemen? Take any period, say fifty years—will these States in that time have more acres of improved land by the admission than by the exclusion of slaves?

In respect to population and improvement, compare Pennsylvania with Maryland and Virginia, particularly the latter; the conclusion is obvious. But why do I expostulate with you, who already see all the reasons on this subject in points of view more striking than I can place them? Forgive me if my solicitude to prevent the greatest of evil, has rendered me prolix. To suffer the continuance of slaves, till they can be gradually emancipated, in States already overrun with them, may be pardonable, because unavoidable without hazarding greater evil but to introduce them into countries where none now exist—countries which have been talked of, which we have boasted of, as asylums to the oppressed of the earth—can never be forgiven. For God's sake, then, let one more effort be made to prevent so terrible a calamity. The fundamental Constitutions of these States are yet liable to alteration, and this is probably the only time when the evil can certainly be prevented."

This earnest, honest, and almost impassioned appeal from one who was still wearing the uniform of a soldier of freedom, who through the trials and perils of the revolution had nobly done his part—fell not upon an unwilling heart, for it was within a week of the date of Mr. Pickering's letter, that on the 16th March, Mr King introduced his proviso of freedom, differing essentially from that of Mr. Jefferson—in that it was of *immediate* and not *prospective* application, that it forbade then and forever the existence of Slavery in all the region embraced in the law of 1784; whereas, Mr. Jefferson was for planting it there, and, after 15 years of growth, then eradicating it. Mr. K thought with Mr Pickering, that the admission of slaves for a day or an hour into a region before exempt from it, was not to be endured.

LETTER FROM KANSAS.—We republish the first [illegible] Kansas correspondent's excellent letter, in order to give it entire in to-day's paper. It is not only interesting to our readers generally, but especially valuable to those of the number who think of emigrating to Kansas. The information which it contains is very full and entirely reliable. We think the Sentinel can fairly claim to have published the best series of Letters from Kansas that has appeared in any paper, East or West.

DIVIDING THE WARDS.—The Common Council have adopted a memorial to the Legislature, asking the passage of an act to divide the First and Second Wards and erect two new Wards. This is rendered necessary by the large size and rapidly increasing population of these two Wards. They are each more than twice as large as the Fourth or Fifth. We hope that the Legislature will pass the act at once.

NEW YORK MONEY MARKET.—The Tribune of Friday says:—"The ease in the money market rather increases, and we hear of "gilt-edge" paper 60 days and under passed in the Banks to-day at 5 per cent. The discount brokers have rather a free supply of six months paper, but short paper is scarce, and first class goes at 6a7 per cent. freely. Call loans, 5-6 per cent., and pressed upon favorite borrowers."

A New Democratic Principle.

The News announces the forthcoming introduction of a new principle into the Democratic platform. The said platform "has been sadly damaged at the recent elections, and without the addition of some new elements of strength, will never carry them through the Presidential contest of 1856. Of course, the next, like all the recent improvements to the Platform has special reference to the interest of Slavery. It is nothing less than the Annexation of Cuba and the addition of two or three Slave States to our Free Confederacy. The News says:

"We shall not be surprised if the question of annexation becomes the issue in the next Presidential campaign. The Democracy are already breaking ground in its favor. We perceive that at the [illegible] meeting of the Democracy, at Tammany Hall in New York, on the [illegible] inst., at which [illegible], of Michigan was the principal speaker, the resolutions take strong and open ground in favor of annexing "Queen of the Antilles" and put it forward as an article of the democratic faith. We apprehend the National Democratic Convention at Baltimore in 1856, will adopt a similar resolution."

Very likely they will, and endorse, at the same time, the cool proposition of our three Ministers, Messrs. Buchanan, Mason and Soule, submitted to the Federal Government in their famous Ostend despatch. That was briefly this:

"After we shall have offered Spain a price for Cuba far beyond its present value, and this shall have been refused, it will then be time to consider the question, does Cuba in the possession of Spain, seriously endanger our internal peace and the existence of our cherished Union? Should this question be answered in the affirmative, then by every law, human and divine, we shall be justified in wresting it from Spain, if we possess the power."

In other words, if Spain wont sell Cuba, the United States have the right to take it. This is the new Democratic principle which is to be made "the issue," the News already warns us, in the next Presidential campaign.

With all due deference to our contemporary, this is no "new" principle. It is as old as Theft, Robbery and Piracy. It is the mere repetition of the Highwayman's and Cutthroat's cry to "stand and deliver." The Free, Christian, Enlightened Government of these United States—the Model Republic of the world—the City of [illegible] the asylum of the oppressed of all nations—(Africa excepted) turns to the Freebooter and Filibuster [illegible] means what we have failed to [illegible]. We think the spectacle of the United States, pistol in hand and bowie knife [illegible], playing the Bravo and trying to bully weak and decrepit Spain out of the coveted Island of Cuba, would be exceedingly encouraging and refreshing to all believers in Human progress and in the Moral and Religious superiority of the Nineteenth Century to its "illustrious predecessors!"

RACINE AND BELOIT R. R.—The Racine Advocate expresses the confidence that passenger [illegible] on this road before the 1st [illegible] November. The same paper complains that the Wisconsin has taken especial pains to depreciate the credit of the Racine and Beloit R. R. company, or ignore its existence altogether," and adds:

"Our Milwaukee neighbors may live to see the day when they will regret the course they are now pursuing towards this city."

Whatever may be the shortcomings of the Wisconsin in this particular, it is very certain that the Milwaukee Press generally have dealt fairly and generously by the Racine and Beloit R. R. [illegible] and enterprise of our sister city—For ourselves, at least, answer for the Sentinel, that we have omitted no proper occasion to say a good word for the road itself and for Racine, and that we always do so readily and cheerfully. We assure, therefore, that our friend of the Advocate has no good ground of complaint against his "Milwaukee neighbours."

HIGH PRICE FOR WHEAT.—A load of 60 bushels prime winter Wheat, raised in Waukesha County was bought at the Mills, yesterday, at [illegible]. This is the highest figure yet reached during the present year, tho' the prospect now is that still higher rates will be paid before long.

☞ The telegraph "went down" again, yesterday on purpose, of course, to worry the Wisconsin, and abuse it accordingly from that paper, at this time.

"If the [illegible]-down, wheezy old telegraph line [illegible] to-day, we may have news from one or more of these steamers, with seven and eleven days later news from the seat of war."

We are credibly informed that the telegraph made an effort to "get up" yesterday, but the above paragraph from the Wisconsin was too much for it, and it went "down" again.

[illegible] JAIL BREAKING.—The jury in the case of [illegible] Rycraft Bingham et. al., acquitted the defendants not on the ground of an absence of proof, as to their actual participation in the [illegible], but on the ground that the breaking of the jail was the [illegible] of a sudden [illegible] not premeditated riot caused by the defence [illegible] participated in by them. The indictment being for [illegible] this legal distinction became of some importance in the case.—[News of yesterday.

The "distinction" and the proof sustaining it are however important as throwing some light on the [illegible] in the U. S. Court of Messrs. Booth and Rycraft where the great effort seemed to be to [illegible] a "premeditated" rescue.

TWO MEN OVERBOARD.—The Wisconsin of [illegible] evening, in referring to the veto of the bill for the Improvement of the St. Clair Flats, thus unceremoniously [illegible] two distinguished political [illegible]:

"There is no doubt that this Veto annihilates [illegible] Cass of Michigan, because it was one of Gen. Cass' [illegible] measures, and the people of that State will hold him responsible for the conduct of his Executive chief. It is not necessary to [illegible], because he committed political suicide some time since."

From Madison.

EDITORIAL CORRESPONDENCE OF THE SENTINEL.

Madison, March 13, 1855.

I notice, in an article in the News, the following sentences in relation to certain remarks of mine as to the action of the "Milwaukee Free Trade Association" upon elections in general, and our city election in particular:

> We have the assurance of the members of the Association that there was no concert of action to aid the election of the democratic nominee for Mayor, no agreement of the kind, and not one dollar subscribed by that Association for such purposes. * * * We offset all these assurances against the simple declaration of the junior editor of the Sentinel who in the conversation to which he alludes with a member of the Association, we are assured, either labors under a misapprehension, or willfully misstates it.

Relative to the alternative supposition, that I "willfully misstated" the purport of the conversation, I have nothing to say; but, without having the letter referred to now before me, I only state that I wrote exactly the truth. The conversation was not a private one, but in the street, with half-a-dozen persons standing by, any or all of whom would confirm what I said. If any members of the Association in Milwaukee deny that "any money has been raised for such purposes" why, there is a question of veracity between them and the member with whom I conversed, which they must settle among themselves.

Our attached friend, Mr. Kilbourn, could not have carefully read the article in the Sentinel, in relation to some 90 pages of the Documentary History. As most people read it, it was a criticism upon the propriety of the insertion of those pages in the book, and not a discussion of the character of the Rock River Canal Co's claim. Whatever opinions any one may have upon that subject—and during the past few years the people have acquired considerable familiarity with it—it would seem as if there could be no difference of opinion upon the propriety or decency of inserting a lengthy argument on one side of a pending and doubtful claim in a volume of state history.

In Senate, this morning:

Mr. Clement introduced a resolution directing the Clerk to inform the State Treasurer of the passage of a resolution the other day, in regard to the state of the funds.

Bills were introduced by several members, none however of any general importance except one by Mr. Kelsey, to give the Swamp Lands to the counties.

The bill authorizing the taking of State bank bills for taxes was rejected.

In the afternoon the Senate was in committee on the Census Bill.

ASSEMBLY.—The only petition was one from Wm Welch, asking that the State refund to him for two pieces of Territorial scrip of 1846.

The Chief Clerk, through the Speaker, reported that he had conferred with the Postmaster of Madison, and that that officer is still willing to charge the postage to the State, but that he is obliged to make up his accounts for the 1st of April, and he had understood that there would be no money in the Treasury at that time. He requests that such action be taken as to secure the money when appropriated.

Judge Vilas introduced a bill providing that $1500 be retained in the Treasury to meet these appropriations, and this bill was passed at once.

The only other bill introduced was also by Mr. Vilas, to pay W. Welch $67,08.

Three or four standing committees reported back bills in their charge.

Mr. Randall arose and desired the privilege of making a personal explanation. It will be remembered that in reporting last week the plan devised by the Joint Committee for investigating the affairs of the State, Mr. Randall said that the plan was one suggested by Judge Dunn, of the Senate, and I mentioned this statement in one of my letters. Upon this there followed some articles in the Milwaukee papers on the subject and in one of these, the Sentinel stated that Judge Dunn was the author of the plan. This statement the Argus & Democrat of this place denied on Saturday with considerable harsh language, and again denied the statement yesterday. The Argus stated that Judge Dunn had "found the plan already perfected by the majority of the committee, and that they were settled in the intention to recommend the appointment of commissioners to sit after the adjournment;" also that "the concessions which they (the committee) yielded, were yielded with a sorry grace" &c.

Mr Randall said that this was a matter which concerned others besides himself, and he asked his colleagues of the Assembly on that committee whether the assertions in the Democrat were true. These gentlemen, Messrs Field and Van Nostrand, pronounced them false, and both stated that Judge Dunn originated the plan; as also that two other assertions to the same general effect as above were false. Mr Van Nostrand said further that "the committee met once before Judge Dunn was with them, and at that meeting they were generally of the opinion that there should be an early adjournment and an extra session of a week or thereabouts to act upon the report of the committee. That at the second meeting Judge Dunn was present, and suggested this plan, and the rest of the committee assented to it. That this plan was the one recommended by Judge Dunn, his words being "appoint the committees and let them report to the Governor;" and further, that "the strictures of the Argus & Democrat were made upon good democrats, who were always true to their party, which that paper was not."

With this ended the explanation.

After the passage of four bills, the titles of which are already sent, there came up, on its third reading, a bill introduced by P. H. Smith, of Outagamie, contemplating a decision of the question as to the right of students to vote where they are attending institutions of instruction; the decision being against the right. Messrs. Smith, Vilas, Rose, and Martin sustained the bill and Messrs. Virgin, Gary, and Pratt opposed it as making a distinction against students, while no other class was marked out for such exclusion. Mr. Bennet thought there was a "cat under the meal" and that the meal was thin, and moved the indefinite postponement of the bill which was carried, 38 to 27, the ayes all Republicans except Mr. O'Neil, the noes all democrats except Messrs. DeWolf and Thompson, independents.

On motion of Mr. Rose, the vote refusing to pass the bill concerning a Canal on Lake Poygan was tabled on a motion to reconsider.

The bill appropriating $30 each to the State Prison visiting Committee was passed.

The Assembly took up the bill providing against the circulation of depreciated currency and after amending the second section, so as to make the foreign bills redeemable at ¼ per cent in New York, or redeemable at par in Milwaukee, Chicago, or St. Louis, ordered the bill engrossed.

Nine bills were disposed of in Committee of the Whole, and one, a bill organizing a Municipal Court in Watertown, was passed, having been amended at the request of some of the Dodge and Jefferson County members.

In the afternoon:

The bill providing for limiting the forfeiture in usury cases to the interest, was referred to a Select Committee, the bill relating to pre-emption on swamp lands to another, and the death penalty bill to the Judiciary Committee.

The bill providing for a Quarterly Statement of the condition of the Treasury, and prohibiting traffic in the state funds, was passed.

Bills were introduced by three or four members, and the Assembly went into Committee of the Whole, Mr. Randall in the chair, and finished the general file, the House ordering 13 bills to a third reading.

Two bills passed:

Authorizing Watertown to aid the R. R. V. U. R. R.

Authorizing a dam over the Pecatonica river.

Just as the Assembly was ready to adjourn, the Speaker stated that he had a communication from the Lunatic Asylum Commissioners. It was read. It was very long, the following being its principal points:

That the examination by the Investigating Committee was private and ex parte; that no notice had been given or request made of the Commissioners for their attendance; that they had asked that they might be present and cross examine the witnesses; that they believe the committee did not intend to conduct the examination fairly; that the appointment of one of them was an unfit one, as he had declared his wish "to break up the contract, right or wrong;" that they did not believe the report would be made with a view to justice; that the resolution offered by Mr. Howell in Senate was rejected through misapprehension; that on Saturday they sent to the Committee, asking an opportunity to review the testimony &c., but were not allowed to see or hear the evidence; that they have no faith that the majority of the committee have any desire to do justice, &c., &c.

Mr. Gary said that he should like to hear from some member of the Committee whether the details of the Commissioners' complaint were correct:

Mr. P. H. Smith, Chairman of the Committee, said that, whether intentionally or not he would not say, but the statements of the Commissioners were untrue in almost every particular, from beginning to end. That in only one instance, through the examination, had any of them been prevented from being present; and in that case as a witness was to be examined whose evidence it was thought might reflect upon the Commissioner present, he was desired to withdraw, the object being out of delicacy to him, to keep all idea of any suspicion from him, if nothing should be elicited; but as the testimony did implicate him, he was sent for so that he might cross examine the witness, and did do so. That the Committee had sent for the Comm'rs many times; that these last have come and staid as long as they pleased, and have hurried the Committee along, as they wished to go; that the Committee on one occasion sat from 2 o'clock to 7 P. M. receiving the testimony of the Comm'rs alone; that the latter have never made a request which has not been granted; that on Friday last, the Committee thought that they had got through, but devoted Saturday afternoon to hearing counsel for the contractor; that, after receiving that afternoon the request from the Commissioners, the Committee sent word that they would meet them last evening and again on Monday afternoon; that at these times the Committee met, but no Commissioner came near them.

Mr. Smith concluded this explicit answer to the communication, by stating that he believed its only object was that the request might be denied, so that the Commissioners might make Buncomb out of the refusal.

Mr. Gary said that the document contained violent aspersions upon the character and motives of the Committee, in whom he had the utmost confidence. He thought that further notice ought to be taken of it, and moved its reference to the Committee of Investigation.

Mr. Randall said it was desirable that the document should have been more explicit on one point, as to the alleged declarations of a member of the committee. That neither himself, nor, he believed, any other of the committee had expressed an intention "to break the contract, right or wrong," but that after learning the character, and in view of the condition of the state, he had said, that it would be best for the State to repudiate the contract, if it cost $50,000. The object of the movement now seemed to be to delay action till too late, and to fasten this immense liability upon the State, beyond relief.

Mr. Field, another member of the Committee expressed his full concurrence in the declarations of the Chairman; and added, that, on the occasion when the Commissioner was implicated by a witness, the cross-examination only placed him deeper in the mire.

Mr. Goss, also a member of the Committee, said that the intention of the Committee had always been to give the Commissioners an opportunity to hear the testimony; so little truth was there in the charge that the examination was to be unfair, and ex parte.

The reference to the Committee was made, and the House adjourned. W. H. W.

STEAMERS DUE.—The steamship Pacific started from Liverpool on the 24th, and is now several days over due, having been out 17 days—The Africa sailed on the 28th, and has been out 14 days. The Hermann sailed from Southampton on the 28th, and is now due at New York.—[Wisconsin of yesterday.

It is conjectured by the New York papers that the Pacific did not arrive out in time to sail on her advertised day. The Arabia was not to sail till the 2d of March and is in her 13th day out to-day. The Hermann is a slow coach and usually 15 or 16 days in coming.

LETTERS FROM KANSAS--No 1.

LAWRENCE, KANSAS TERRITORY, March 1st, 1855.

Messrs. Editors:

Want of time, and indisposition for two weeks past, has prevented my sending you my usual correspondence. As I am in the frequent receipt of letters of inquiry in reference to this territory, and the means of getting here, with the things necessary to be brought, &c., I will in this place, if you please, take occasion to answer some of these enquiries. Here is a letter from Chicago which, as it contains about as comprehensive a list of questions as any I have received, I will take as my guide. I have received similar questions from Milwaukee:

"How far from St. Louis are you located and in what direction?"

In a westerly direction, 450 miles from St. Louis up the Missouri River to the mouth of the Kansas, thence 75 miles up that river by water, or 50 by land, to this place. Boats will be running to this place and above immediately on the opening of navigation, say in two weeks or less from this date.

"In what portion of the territory can we find a good location?"

In any portion, not embraced in Indian reservations. As good points as have been located and probably better, are open for location; and some of those first chosen, as possessing superior advantages, have been abandoned, as witness the famed city of Douglass, 10 miles above this place on the Kansas, which never contained but one house.

"At what season would you advise us to come?"

Just as early as you can pick up your duds and start. We want you here at the coming election, in about two weeks, to vote for freedom and immediately thereafter to work for it without cessation, until its consummation—probably some few years hence. If this discourages you, you better not come, as those are needed here who are willing and expect to work for Humanity, at least a portion of the time.

"What is our best mode of travelling, and what route is the most expeditious?"

By railroad to St. Louis, and steamboat thence to this place, or any other on the Kansas river; or by team from Kansas, Mo., to the southern portions of the territory.

"Would you advise us to bring our women with us at first?"

By all means, especially if you come in the fore part of the season. Could you but witness the sorrows and lamentations—the feeling and appearances of perfect abandon, with knees and elbows boldly protruding, or striving to hide themselves beneath the overhanging and surrounding tatters—the apparent want of care as to personal appearance, or even, as is too often the case, of cleanliness—the vexatious loss of time and temper expended in cooking and other household duties, &c., manifested by those of us who have left their wives behind them, I am sure you would never venture on the experiment; at least they will never repeat it. The women amongst us appear to have withstood the hardships of pioneer life, thus far, quite as well as the men, and in a manner to shame some of them at least. Bring on your women. The summer season is more favorable than the winter.

"What had we best bring with us?"

Everything you can apply to use. Nothing will come amiss, as nothing is manufactured here yet, and scarcity and high prices must prevail for some time to come. Tools and implements of agriculture and the trades household goods of necessary kinds, will be required. The country will abound with provisions, and merchandize of dry goods, groceries, &c., at reasonable rates, just as fast and as far as they will be required by the settlers. No doubt there will be abundance of teams of horses, mules and oxen, and also cows and other live stock, driven in from the adjoining States, as fast as required, and competition will keep them at reasonable prices, if not they can be readily procured there by going for them. Prices there now are very low and falling, much lower than they were last fall.

"How many would be best to come, and how many are actually necessary to success?"

To the first part I will answer, five hundred thousand, for the first installment, to be followed up as fast as circumstances will permit; to the last part, I am not certain that I understand what "success" is referred. If individual wealth is meant, any man who has ordinary faculties and common energy, can become independent by going on to, and pre-empting 160 acres of as good land as lies out of doors, or mechanical and other labor is, and will be, in good demand at remunerating prices.

"What kind of mechanics are most needed, and what proportion of each?"

Of course houses are first to be built of wood, stone concrete, gravel wall, brick, logs, and perhaps even sods. Then farming utensils, household stuff of all kinds, and finally the luxuries. In the meantime we are, even now, in pressing want of shoemakers and tailors. Send or bring on all kinds, and if there should be a superfluity of some kinds, they will find they were never in better luck than when they had an opportunity to step out and take up a farm.

"What is the nature, strength, &c., of the soil."

It is generally a clay loam or marl, resting on a clay subsoil, with a light friable surface of vegetable mold from one to three or four feet in depth, yielding a most luxuriant growth of vegetation, from the grass that mats the surface, to the majestic forest, when left free from the destruction of fires, to perfect itself.

"Situation of towns and cities already located as regards access to conveyance?"

There are a number of cities located on the Missouri river, above the mouth of the Kansas, the most important of which is Leavenworth.—On the Kansas are Lawrence, Topeka and Wauponsa, located and settling under the auspices of the Emigrant Aid Society of Boston. Also Tecumseh, LaCompte, Pawnee, Fort Rielly, Fort George, and others; some under the auspices of the slaveocracy, others of northern freemen. The Emigrant Aid Society have also by their agents laid out a new town on the Osage river, some distance south of us. I do not know that the Osage is navigable to that point. All on the Kansas are accessible to steamboat navigation. No other towns of importance laid out.

"Is the land generally high or low, level or hilly?"

High rolling prairie, except upon the river bottoms, which are said to be sometimes overflowed.

"Have you prairie or timber land, and in what proportion?"

Timber along the river bottoms and in the ravines, none upland, say about one-twentieth part timber.

"What does the soil most easily produce?"

Corn will probably be the great staple; but all kinds of grain of the Middle States can be raised in abundance; and the river bottoms, which are in some places miles in width, are, from the extraordinary richness of the soil and other conditions admirably adapted to the culture of hemp. Fruit is excellent. Some of the finest apples I ever saw I have eaten here.

"What is the general character of the climate?"

Like the Middle States of the same latitude, but less rain, I think, in summer and snow in winter. We have had but seven inches of snow altogether during the past winter, and not more than two inches of rain since we came here, the first of September last. The rains are confined mostly to the spring as I understand, but the soil is admirably adapted to the retention of moisture for the uses of vegetation, so that our people made good hay from the prairie grass long after our arrival last fall, notwithstanding the severe and protracted drought of last summer. The summers are not so warm nor the winters so cold as in the same latitude east; but in consequence of its elevation and its proximity to the Rocky Mountains it is subject to high winds and sudden changes of temperature.

"What is the character of the people who are settling in?"

The largest representation from any one State is, as yet, from Missouri, many of whom, I can not estimate the proportion, are for a free State in Kansas. Many are the mere tools of the slave owners sent in to prepare the way for them to bring on their slaves, which they dare not do now. The largest portion of the northern emigration is from the Western States, men of good practical common sense, but wanting in the education and refinements of the east. The eastern emigration, that portion of it which remains here after the bran has blown out and gone back is "good wheat." For instance, it has been remarked by capable judges that Lawrence contains more intelligence and talent than any other place they ever saw. The settlers from Missouri present the characteristics inseparable from a slave cursed State, where common schools find no support and general education is neglected.

"Have you any Indians, and are they hostile or civil?"

We have several tribes of Indians in the territory, who have made reservations of land in their treaties with the government, to the extent of 200 acres for each man, woman and child. Many of them are in quite an advanced stage of civilization and all, so far as I know, perfectly friendly and civil.

"What are the prospects in regard to the success or defeat of Slavery in Kansas?"

In my opinion, it will meet with a temporary success so far as the coming election and action of the first Legislature can affect it; and possibly the second, though I think not. But that it will adopt a free constitution, I have no doubt, at least if the indications of a free emigration from the northern States are not all false.

"Have you any colored persons among you, and what is the general feeling towards them?"

There are but few, and the general feeling is hostile. The free-state Missourians, and most of the Southern Illinoisans and Indianians are bitterly opposed to their admission into the Territory, and I doubt not the "black laws" of Illinois and Indiana will be enacted here in case a free Constitution is adopted. Already the indications are abundant of northern and eastern abolitionists forsaking principle and declaring for this abomination, in order to promote opportunities for them to serve their country in its Legislative Halls!

"From what portions of the country are you receiving additions to your population?"

From all portions (See above)

"Have you water privileges suitable for mills?"

Not in this section of the country. I am informed there are some farther west, towards the head waters of the Kansas and on the streams flowing into it. Also south of here on the Osage and its branches.

"What are the facilities for building?"

A sufficiency of timber for building purposes, with plenty of stone jutting out from the bluffs and summits of the high lands in all directions, good clay for brick, and materials for concrete or gravel walls.

"What kind of timber have you suitable for building purposes?"

Oak, black walnut, hickory, hackberry, cotton wood, elm, ash—"or for sawing into timber?" Black walnut, cotton wood and oak. Cotton wood is most abundant but makes inferior lumber. It resembles the poplar or whitewood of the Northern States, but is more affected by the changes of weather.

"Could lumbering be made a good business, and is there sufficient water in the river for rafting?"

There is not a sufficient quantity of timber for lumbering purposes.

"Have you any stone suitable for lime and general building purposes?"

Abundance.

"Is there any coal in the Territory?"

Yes, cropping out from the surface in all parts of it. No mines have been worked yet.

"Is your prairie stocked with wild game, and your streams with fish, and of what sort?"

Wild game is not very plenty—we have a few deer and turkeys. Prairie hens and quail are quite plenty, and will be more so as soon as grain is raised. There are plenty of fish in the Kansas, though but little has been done in catching them. We have no seins here yet.

"What is the quality of the water—have you wells or springs?"

Both—the former by digging 30 to 40 feet.—Springs are not very numerous. The water is pronounced excellent, but is generally 'hard.'

"Do you use horses, mules, or oxen; can they be obtained there and at what prices?"

We use all, and in the neighboring state of Missouri they can be purchased at reasonable rates. I do not know the present prices, but understand from the papers that they have declined considerably lately.

"What is the prospect in general of making money?"

Good—see above.

"What will the journey cost each of us to reach your place and do we want much money when we arrive?"

I think the fare from Chicago to St. Louis, by Railroad via Alton, is $7,00. By calling on B. Slater, No. 27 Levee, St. Louis, an agent of the Emigrant Aid Society, passage from there to Kansas, Mo., can be had for $10,00; from Kansas to this place by team, $1,50. A steamer is advertised to leave St. Louis for this place and above, on the opening of navigation, fare not given—B. Slater, St. Louis, Agent. Bring all the money you have; you can use it to better advantage here in making your own improvements, or in speculative investments, than any where else. Capital is very much needed here now and will pay a good return.

"What rules and regulations would you recommend us to adopt, for the government and well being of a company of 50 men?"

If you wish to settle in a community by yourselves, circumstances will suggest to you the best form of organization. I am not prepared to advise. On the passage, you need to choose some one of your company as your agent, to direct matters, look after baggage, &c., and with the christian rule of mutual good will and forbearance, you will get through without trouble.

"In what location can land be found in large quantities, suitable for the accommodations of 50 or 60 families?"

In almost any section of the territory; the valley of the Kansas, up to some 70 or 80 miles above here, is too well taken up to admit of such a location exclusively, although there are abundance of "claims," both single and in smaller numbers than named above, to be had along the whole distance.

"How much can a man claim?"

160 acres.

"And can a married man claim more than a single one?"

No. White male citizens of the age of 21, widows, and heads of families are entitled to pre-empt 160 acres each.

The census of the territory, preparatory to an apportionment for the legislature has been taken, but the returns are not all made yet. There are probably some 6000 to 7000 inhabitants in the territory and over 3000 voters. Large numbers of Missourians are already coming into the territory, in anticipation of the election, which is expected to take place about the 20th inst. It is reported to day that a company of 100 are camped in our district, upon the Waukarusa. If so, they will not rest satisfied with a less attempt than the absolute carrying of this, the strongest free state district in the territory. If they succeed here I don't know where we can succeed, and we may expect a legislature like a jug handle, all on one side. The Governor has given assurances that the election, so far as he can determine it, shall be the free expression of the actual voter's of the territory, and that in all districts where illegal voting is done, if the proof is presented to him, a new election shall be ordered, the same to be repeated until the evil is corrected. This policy strictly carried out, with the exercise of a little policy on the part of the Governor in fixing the times, would so embarrass the foreign voters and their masters, and render the speculation so expensive to them, that they would be forced to abandon it as a losing game, with no chances to win. But whether it will be enforced or not, is a question. The pro-Slavery influences around the Governor, are most powerful.

The Judicial organization of the Territory has just been effected by the Governor, dividing it into three districts, and assigning one to each of the judges appointed by the President, as follows; to Chief Justice S. D. Lecompte the eastern district, the court to be held at Leavenworth; the middle to Justice Rush Elmore, at Tecumseh; the western to Justice S. W. Johnson, at Pawnee, the new town of the Governor's and the prospective capital, near Fort Reilley.

We have had about one week of the coldest weather of the season the thermometer standing on Monday morning last at 4 deg. below zero.—It is now pleasant again, with a south wind.

We are still embarrassed in consequence of the obstruction of the mails in Illinois. I yesterday received Milwaukee and Chicago letters of Jan'y 27th, and our newspapers are behind still. No N. Y. Tribune later than Jan'y 26, and but few eastern papers of any kind. I have received but two Sentinels since the commencement of the storm, Jan'y 29th, and should not be surprised if the accumulated paper mails for this place should by some means fail entirely to get through Missouri, we have become so exceedingly obnoxious to them on account of our free soil predilections. They seem really to consider us a band of marauders bought up and sent on here by the Emigrant Aid Society for the express and only purpose to commit depredations upon them, and steal and run off with their live property; when I can assure them we intend nothing of the sort, and nothing will tempt us to go over there and regulate their affairs unless it be to repay them for their kind attentions in coming here to attend to ours. We feel very grateful for their exceeding interest in the management of our affairs, and I know of no way but to repay them in kind, for we dislike exceedingly to feel under obligations to our neighbors when we have the means and opportunity to reciprocate.

Yours, &c., E. D. L.

CASH SALES IN THE PINERY.—The Stevens Pt. Pinery of the 8th, says that the cash sales at the Land Office in that place for the month of February, amounted to $8,369 12—the heavy snows having interfered with the looking out of lands. Purchasers are flocking in this month, and commencing in towns 25 and 26 north, in timber and openings.

NESHOTO MILLS.—The Manitowoc Herald has a detailed account of these Mills, the property of PENDLETON & Co., of Racine. They are distant between 5 and 6 miles from Manitowoc. Three upright saws, besides lath saws, are employed in the manufacture of lumber, and both steam and water power used. The amount of Lumber manufactured at these mills, the past year, was three and a half millions of feet, and the amount of capital invested $125,000. The proprietors, says the Tribune, have entered within eighteen months 10,000 acres of pine land on the river above, they are now building a powerful Steam Tug for their own use, of sufficient power to tow vessels or rafts. They are building a pier at Two Rivers which will cost about $10,000. The logs they will have on hand this spring will exceed $45,000 in value, and our informant was shown a pile of lumber, ready for shipment, containing 1,000,000 feet.

DREADFUL ACCIDENT.—We are pained to record the death by accident on yesterday, of George A. Mason, a son of Col. R. B. Mason of the Illinois Central R. R. Young Mason left this city on yesterday morning for Rockford, and when near that place, while looking out of the window of the car, his head struck against a post near the track, instantly killing him. He was a young man of twenty years of age, and of high promise. His body was brought in, last night, on a special train.—[Chicago Tribune, March 13.

AMERICAN HISTORY.

LIGHT ON AN OBSCURE QUESTION.

Who Framed the Ordinance of '87?

[CONTINUED.]

The next effort, in the order of time, to establish a government for the Territories, is thus noticed in the Journal of Friday, 29th September, 1786: "Congress proceeded to the consideration of an ordinance for the government of the Western Territory reported by Mr. Johnson, Mr. Pinkney, Mr. Smith, Mr. Dane and Mr. Henry."—No previous reference to the appointment of this Committee, appears in the Journal. The House debated the report that day, and again on the 4th October, after which nothing further concerning it is recorded in the Journals; and the Congress expired by its proper limitation on Saturday, 4th November. On Monday, the 6th November, the new Congress met, but without forming a quorum, and none was formed till Wednesday, 17th January, '87. Mr. Gorham, Mr. King, Mr. Dane, were in attendance from Massachusetts. The House failed to elect a President on that day, and no quorum was obtained again until Friday, 2d February, when Gen St. Clair was chosen President. By an annual resolution the unfinished business of the old Congress was continued in the new Congress, and accordingly in the Journal of Wednesday, 9th May, 1787, we find this entry: "Congress proceeded in the second reading of the ordinance for the government of the Western Territory."

It was debated that day, Mr. King and Mr. Dane being both present and voting, and was ordered to be transcribed and to be read a third time next day. It was, however, postponed on that day, and no more is heard of it. From Friday, the 11th May to Friday, the 6th July, no quorum could be had, and of course no business was done in Congress. Again, from Friday 6th, to Wednesday, July 11, the House was left without a quorum. On that day (11th) we find this entry in the journal, the Committee consisting of Mr. Carrington, Mr Dane, Mr. R. H. Lee, Mr. Kean, and Mr Smith, to whom was referred the report of a Committee touching the temporary government of the Western Territories, reported an ordinance for the government of the territory of the United States north-west of the River Ohio, which was read a first time, and ordered for a second reading next day.

There is no previous notice in the journal of the reference of this subject to a Committee, but it seems reasonable to resume that the report thus referred was that which had been under debate on 9th May, and the ordinance accompanying which was then ordered to be transcribed for a third reading next day; however that be, the ordinance read a first time on the 11th, was read a second time on the 12th, and on the 13th was adopted by the unanimous vote of all the States present, eight in number, viz: Massachusetts, New-York, New-Jersey, Delaware, Virginia, North Carolina, South Carolina, Georgia, and of every member save Mr. Yates of N. Y., and so far as appears from the journal, without any debate, or attempt to amend or change it, and this was the famous Ordinance of '87, the great charter of freedom for the great North-Western Territory, now composing, with additions since obtained from the Indians, six free States.

This ordinance for the government of the territory of the United States north-west of the River Ohio, after prescribing with minuteness the mode of obtaining and transmitting land, of appointing magistrates, establishing laws, &c., &c., sets forth the following articles of compact, with this recital:

And for extending the fundamental principles of civil and religious liberty, which form the basis whereon these republics, their laws and constitutions are erected, to fix and establish those principles as the basis of all laws, constitutions, and governments, which forever hereafter shall be formed in that territory; to provide also for the establishment of States and permanent governments therein, and for their admission to a share in the federal councils on an equal footing with the original States at as early periods as may be consistent with the general interest;

It is hereby ordained and declared, by the authority aforesaid, that the following articles shall be considered as articles of compact between the original States and the people and States in said territory, and forever remain unalterable, unless by common consent, to-wit:

ARTICLE I. No person demeaning himself in a peaceable and orderly manner shall ever be molested on account of his mode of worship or religious sentiments in the said Territory.

ART. II. The inhabitants of the said Territory shall always be entitled to the benefit of the writ of habeas corpus, and of the trial by Jury—of a proportionate representation of the people in the Legislature, and of Judicial proceedings according to the course of the common law; all persons shall be bailable, unless for capital offences, where the proof shall be evident or the presumption great. All fines shall be moderate, and no cruel nor unusual punishment shall be inflicted. No man shall be deprived of his liberty or property but by the judgment of his peers, or the laws of the land; and should the public exigencies make it necessary for the common preservation to take any person's property, or to demand his particular services, full compensation shall be made for the same. And in the just preservation of rights and property it is understood and declared that no law ought ever to be made or have force in that Territory, that shall in any manner interfere with or affect private contracts or engagements, bona fide, and without fraud previously formed.

ART. III. Religion, morality, and knowledge being necessary to good government and the happiness of mankind, schools and the means of education shall forever be encouraged; the utmost good faith shall forever be observed toward the Indians; their lands and property shall never be taken from them without their consent, and in their property rights and liberty they never shall be invaded nor disturbed, unless in just and lawful war authorized by Congress; but laws founded in justice and humanity shall from time to time be made for preventing wrong being done them and for preserving peace and friendship with them.

ART. IV. The said Territory, with the States which may be formed therein, shall forever remain a part of this Confederacy of the United States of America, subject to the articles of confederation and such alterations therein as may be constitutionally made, and to all the acts and ordinances of the United States in Congress assembled conformable thereto. The inhabitants and settlers in the said Territory shall be subject to pay a part of the Federal debts contracted, or to be contracted, and a proportional part of the expenses of Government, to be apportioned on them by Congress, according to the same common rule and measure by which apportionments thereof shall be made on the other States; and the taxes for paying their proportion shall be laid and levied by the authority and direction of the Legislatures of the District, or Districts, or new States, as in the original States, within the time agreed upon by the United States in Congress assembled. The Legislature of those Districts or new States shall never interfere with the primary disposal of the United States in Congress assembled, nor with any regulations Congress may find necessary for securing the title in such soil to the bona fide purchasers. No tax shall be imposed on lands the property of the United States; and in no case shall non-resident proprietors be taxed higher than residents. The navigable waters leading into the Mississippi and the St Lawrence, and the carrying places between the same, shall be common highways and forever free, as well to the inhabitants of said Territory, as to the citizens of the United States and those of any other State that may be admitted into the Confederacy, without any tax, duty, or impost therefor.

ART. V. There shall be formed in said Territory not less than three nor more than five States and the boundaries of the States, as soon as Virginia shall alter her act of cession, and consent to the same, shall become fixed and established as follows to wit: The Western State in the said Territory shall be bounded by the Mississippi, the Ohio and the Wabash Rivers; a direct line drawn from the Wabash and Fort Vincents due north to the territorial line between the United States and Canada, and by the said territorial line to the Lake of the Woods and Mississippi. The Middle State shall be bounded by the said direct line; the Wabash from Port Vincents to the Ohio, by a direct line drawn due north from the mouth of the Great Miami to the said territorial line and by the said territorial line. The The Eastern State shall be bounded by the last mentioned direct line, the Ohio, Pennsylvania, and the said territorial line; Provided, however, and it is further understood and declared, that the boundaries of these three States shall be subject so far to be altered, that if Congress shall hereafter find it expedient, they shall have authority to form one or two States in the part of the said Territory which lies north of an east and west line drawn through the southerly bend or extreme of Lake Michigan; and whenever any of the said States shall have 60,000 free inhabitants therein, such State shall be admitted by its Delegates into the Congress of the United States, on an equal footing, in all respects whatever, with the original States; and shall be at liberty to form a permanent Constitution and State Government, provided the Constitution and Government so to be formed shall be Republican, and in conformity to the principles contained in these Articles, and so far as it can be consistent with the general interests of the Confederacy, such admission shall be allowed at an earlier period, and when there may be a less number of free inhabitants in a State than 60,000.

ART. VI. There shall be neither slavery nor involuntary servitude in the said Territory, otherwise than in the punishment of crime, and whereof the party shall have been duly convicted; provided, always that any person escaping into the same from whom labor or service is lawfully claimed in any one of the original States said fugitive may be lawfully reclaimed and conveyed to the person claiming his or her labor or service as aforesaid,

Be it ordained by the authority as aforesaid,—That the resolution of 23d April, 1784, relative to the subject of this ordinance, be and the same are hereby repealed and declared null and void:

Mr. King, although a member of the Congress which passed this ordinance, was not present at the time, having left his seat in Congress on the last day in May, when a quorum was had, (the 11th,) and proceeded to take his place as a member of the Convention for forming the Constitution of the United States, which was to assemble in Philadelphia on the following Monday, 14th May. But the debate on this ordinance would seem to have taken place before it was recommitted to Mr. Carrington's Committee, of which Mr. Dane was a member; for, after the report of it back again by this Committee, no debate was had—the ordinance had its three separate readings on three successive days; of course, therefore, all the details and all the principles had been settled before, and during the previous discussion, Mr. Jefferson, for whom the chief merit of this ordinance is claimed, was not in the House, nor in the country during this discussion; and a comparison of his resolutions of April, '84, given above, with the Ordinance of "'87," will show how much more copious, comprehensive and far-reaching are the wise and beneficent provisions in the latter.

Of many of these provisions a large share may be claimed as the suggestion, or the work of Mr. K., and especially the great and desirable one rendering the soil forever incapable of Slavery. As this is the great distinction of the ordinance, it shall be examined thoroughly. The proviso prepared by Mr. Jefferson in 1784, and voted for by him throughout and against the voice of his colleagues, was in these words. "That after the year 1800 of the Christian Era, there shall be neither Slavery nor involuntary servitude in any of the said States, otherwise than in punishment of crimes whereof the party shall have been convicted to have been personally guilty." This proviso, one of those which were to be fundamental articles of compact, unchangeable, except by the consent of both parties was, as has already been stated, struck out on the 19th of April, the residue of the ordinance being adopted on the 22d. Mr. Jefferson, a few days afterward, vacated his seat in Congress, and Mr King as yet had not sat there at all. His first appearance in Congress was in Dec., 1784. In the course of the ensuing spring, the bill for ascertaining the best mode of locating and disposing of the Western lands became a subject of discussion, and warmly enlisted Mr. K's attention and interest, as expressed both by the record of the Journal, and more strikingly, by the correspondence (of which the originals are in my hand) with Elbridge Gerry, Timothy Pickering, and other leading men of that day. It is foreign to the purpose of this discussion to enter into the general scope of this correspondence, and it is only referred to now in order to bring out of it the proof of how early and how earnestly Mr. K's attention was turned to the duty of preventing the spread of Slavery.

Under date of Philadelphia, March 8, 1785 Timothy Pickering thus writes to Mr. K., then attending Congress, in New York.

"Yesterday I was favored with a letter from Mr Gerry, inclosing the draft of ordinance for ascertaining the mode of locating and disposing of lands in the Western Territory, and desiring me to communicate to you such thoughts on the subject as may be judged to have a beneficial tendency."

Mr Pickering goes on to suggest at considerable length, and with thorough knowledge, various provisions which should be embodied in such a law, and closes his letter with this reference to Mr. Jefferson's resolution of April, 1784, and especially to the provision of freedom:

"There is an article in the report of the Committee on which that act was made I am extremely sorry to see was rejected. The Committee proposed that after the year 1800 there should be no slavery in the new States. I hardly have patience to write on a subject in which what is right is so obvious and just and what is wrong is so derogatory to Americans above all men—so inhuman, so iniquitous in itself."

In a still longer letter, written on the evening of the same day, 8th March, 1785, (the two letters filling eleven pages of foolscap paper,) Mr. Pickering thus reverts to the topic of Slavery.

"In looking over the act of Congress of April 23, 1774, (Mr. Jefferson's) and the present report of an ordinance relative to these lands, I observe no provision is made for ministers of the gospel, nor even for schools or academies. The latter might have been brought into view; though, after the admission of Slavery, it was right to say nothing of Christianity. Yet so glaring an inconsistency would not have occasioned much surprise. It is easy to be inconsistent. Congress once made this important declaration—that all men 'are created equal, that they are endowed by their Creator with certain inalienable rights, that among these are life, liberty and the pursuit of happiness'—and these truths were held to be self evident. These great truths were echoed through the United States; nevertheless a proposition for preventing a violation of these truths, in a country yet unsettled, and from which such violence might easily have been excluded, did not obtain. What pretense (argument there could be none) could be offered for its rejection? I should, indeed, have objected to the period proposed (the year 1800) for the exclusion of slavery; for the admission of it for a day or an hour ought to have been forbidden. It will be infinitely easier to prevent the evil at first than to eradicate it or check it at any future time. How would Congress wish these new States to be settled? By slaves or by freemen? Take any period, say fifty years—will these States in that time have more acres of improved land by the admission than by the exclusion of slaves?

In respect to population and improvement, compare Pennsylvania with Maryland and Virginia, particularly the latter; the conclusion is obvious. But why do I expostulate with you, who already see all the reasons on this subject in points of view more striking than I can place them? Forgive me if my solicitude to prevent the greatest of evil, has rendered me prolix. To suffer the continuance of slaves, till they can be gradually emancipated, in States already overrun with them, may be pardonable, because unavoidable without hazarding greater evil but to introduce them into countries where none now exist—countries which have been talked of, which we have boasted of, as asylums to the oppressed of the earth—can never be forgiven. For God's sake, then, let one more effort be made to prevent so terrible a calamity. The fundamental Constitutions of these States are yet liable to alteration, and this is probably the only time when the evil can certainly be prevented."

This earnest, honest, and almost impassioned appeal from one who was still wearing the uniform of a soldier of freedom, who through the trials and perils of the revolutionary war had nobly done his part—fell not upon an unwilling heart, for it was within a week of the date of Mr. Pickering's letter, that on the 16th March, Mr King introduced his proviso of freedom, differing essentially from that of Mr. Jefferson—in that it was of immediate and not prospective application, that it forbade then and forever the existence of Slavery in all the region embraced in the law of 1784; whereas, Mr. Jefferson was for planting it there, and, after 15 years of growth, then eradicating it. Mr. K thought with Mr Pickering, that the admission of slaves for a day or for an hour into a region before exempt from it, was not to be endured.

AMERICAN
Transportation Company.
CAPITAL, $900,000.
Incorporated under the Laws of the State of N. Y.

THE MERCHANTS' TRANSPORTATION COMPANY. THE CLINTON LINE. THE NEW YORK AND CINCINNATI LINE. THE AMERICAN TRANSPORTATION COMPANY. THE WESTERN STATES LINE. THE NEW YORK AND WESTERN LINE. THE WESTERN LAKE BOAT LINE. THE TROY AND ERIE LINE.

THE ABOVE NAMED LINES have sold their property to this Company, which will be prepared, on the opening of navigation, to offer the facilities of the united interest of these Lines for the purpose of transporting property, either East or West.

The Company has abundant means, both in steam propellers and boats, to give any property intrusted to them the greatest dispatch, and it shall be their care to transport all property safely and in good order.

The President and Directors, believing that their present organization will enable them to do the business intrusted to them as cheap and fully equal, if not better than it has heretofore been done, solicit from the customers of the before mentioned lines a continuance of their patronage.

RUFUS C. PALMER, President.
HIRAM NILES, Vice President.
WELLS D. WALBRIDGE, Secretary.
JOHN R. WHEELER, Treasurer.

DIRECTORS.

DR. C. P. FITCH,
Dentist,
(LATE OF NEW YORK CITY,)

HAS THE PLEASURE OF ANNOUNCING TO THE Citizens of Milwaukee, that he has opened Rooms in the

Law Buildings, Wisconsin Street,
FOR DENTAL OPERATIONS.

Dr. F. introduces to this community the New Method of constructing Artificial Dentures on Platinum, called

DR. J. ALLEN'S
Continuous Gum Work,

combining cleanliness, great beauty, with life-like expression, strength, utility, and restoration of the form and contour of the face. This work is unequalled, and stands preeminently first, and will sooner or later take the precedent over the various kinds of Artificial Dentures manufactured in this or any other country. Specimens may be seen at his Room any time during office hours.

After twelve years experience in dental practice, Dr. F. takes great pleasure in warranting all operations in the mouth, such as Gold Stoppings, Gold Plates, Teeth on Pivots, Teeth regulated, cleansed and extracted, &c.

Strict attention will be paid to all diseases arising from, or in any way connected with decayed teeth. Also, counsel given in reference to the management of children's teeth. Advice and counsel given without charge.

Office hours from 8 A. M. to 1 P. M., from 2 to 6 P. M., and from 7 to 9 P. M.

ANDREW MARSHALL [illegible] [illegible] ILSLEY

The Reason why it Succeeds.

THE MUSTANG LINIMENT has attained its enormous popularity, and almost universal use, simply because it gives better satisfaction, accomplishes more good, relieves more pain, and heals more wounds and sores than any other preparation ever before offered to the afflicted. Every bottle that is used, speaks for itself—tells its own tale in the relief it gives, and the cure it effects. And then one who has suffered perhaps long years with pain, without hope of relief, and finds in this Liniment an almost instantaneous remedy, cannot help but speak in its praise and recommend it in the highest terms to all that he sees suffering. It needs no other recommendation than a trial. —See advertisement in another column.

A WONDERFUL DISCOVERY has recently been made by Dr. Curtis, of this city, in the treatment of Consumption, Asthma and all diseases of the lungs. We refer to "Dr. Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup." With this new method Dr. C. has restored many afflicted ones to perfect health, as an evidence of which, he has innumerable certificates. Speaking of the treatment a physician remarks:—"It is evident that inhaling—constantly breathing an agreeable healing vapor, the medicinal properties must come in direct contact with the whole of the aerial cavity of the lungs, and thus escape the many and varied changes produced upon them when introduced into the stomach, and subjected to the process of digestion. The Hygeana is for sale at all the druggists throughout the country.—*New York Dutchman, Jan 14th.*

See advertisement of Medicated Inhalation in another column of this paper. mr8-lyrd&w

A STRANGE THING.

Falsehood in these days is not strange. Imposition and fraud are not strange. But honesty and truth, especially in speculative business are wonderful. For this reason, DR. A. L. ADAMS' LIVER BALSAM is fixing the gaze of thousands upon its sure, unvarying and surprising effects in the removal of disease. It promises and fulfills. It promotes excretion in unison with nature's own efforts, and thus expels the very impurities which, being retained, generated disease. This compound is considered by those who have used it the greatest medical discovery known. Its praise is declared from the North the South, and from the East to the West. It is true! It is true!

See Dr. A. L. Adams advertisement in this paper.

HOLLOWAY'S PILLS—*An Admirable Remedy for the Cure of Bile, Indigestion and Liver Complaints.*—An American lady, the widow of an officer in the E. I. C. Service, had been residing many years in Calcutta, where her liver and stomach had become so deranged that she could with difficulty digest any kind of food. She suffered almost unceasingly from sick headache, nervousness and lowness of spirits, the results of a debilitated constitution. The medical aid she had there was of no avail, and her friends advised her to take up her residence at her sister's, in Savannah, Georgia. The latter lady persuaded her to have recourse to Holloway's Pills which in about six weeks restored her to sound and perfect health, to the astonishment of her benevolent sister who had given up all hope of her recovery.

☞ Three children of Mrs. Brown, residing in Pine street St. Louis, Missouri, by a most remarkable coincidence were scrofulously inclined, the eldest, (Jane) most particularly so, and the mother finding such to be the case, did all in her power to relieve the sufferer, but in vain, she became worse, the blood of the others was equally impure, and they all three were so bad at last, as to become quite an object of horror to their friends.—The mother, about eight weeks ago, put them through a course of Holloway's Pills and Ointment, and strange, yet true it is, that their blood became thoroughly purified, and the scrofulous symptoms disappeared. They are now all three in excellent health to the astonishment and delight of their affectionate parents.

The advantages offered by this Company are many, and the public are invited to call upon the Agent and make themselves acquainted with the System adopted by the Company, when they will be better able to decide whether Life Insurance is desirable or not, and at what Office it is their interest to Insure.

The many reasons why Fire and Marine Insurance should be adopted, are incontrovertible, and Life Insurance, while it in no way interferes with, or undervalues these important institutions, has claims which no other system of Insurance can have. Human existence must on consideration, enjoy a much higher estimation than worldly property.

While the representative of a family lives, (although through neglect to insure his *property*, he becomes bankrupt,) he supports his family, but at his *death*, discloses their means of support, unless he has saved them from want by an insurance on his life, which may be done by the payment of a small annual premium, the payment of which has not diminished his own worldly comforts during life.

If young, the annual payment will be light, and if insured with profits, the policy will be constantly growing more valuable, though the *premium* is not increased.

Clergymen and others who have a stated and regular income, *should insure*, well knowing that at their death their families may be left destitute.

Men engaged in mercantile or manufacturing pursuits ever varying and uncertain in their issues, *should insure*.

The farmer who has still a mortgage on his farm, *should insure*, at least to the extent of it, thereby enabling his family to pay off the debt in case of his death.

OF

HORACE WATERS,

No. 333 Broadway, New York.

OPPOSITION TO MONOPOLY.

Music at Greatly Reduced Rates.

NOTWITHSTANDING the combination *of music dealers* to keep up the prices of non-copyright music, *against the interests of native composers*, and their refusal to extend to Mr. Waters the courtesies of the trade, he is making tremendous sales—having abundant evidence that he has public countenance and support in his opposition to the Great Monopoly, and in his efforts to aid Native Talent, and to adopt the National Currency. His stock of American and European music is immense, and the catalogue of his own publications is one of the largest and best selected in the United States. He has also made a Great Reduction in the prices of Pianos, Melodeons and Musical Instruments of all kinds. Superior toned 6¼ octave pianos for $175, $200 and $225, interior of as good quality and instruments as strong and as durable as those which cost $500. Pianos of every variety of style and price up to $1000, comprising those of ten different manufactories, among them the celebrated modern improved Horace Waters' Pianos, and the first premium Æolian Pianos of T. Gilbert & Co's make (owners of the Æolian patent). Second-hand Pianos at great bargains. Prices from $40 to $150. Melodeons from five different manufactories, including the well known S. D. & H. W. Smith's melodeons (tuned the equal temperament) the best make in the United States. Prices $45, $60, $75, $100, $115, $125, and $150. Smith's Double Bank Melodeons, $200. Each Piano and Melodeon guaranteed. The best terms to the trade, schools, &c. 12½ per cent discount to clergymen and churches. All orders promptly attended to. Music sent to all parts of the country, post paid, at the reduced rates. General and select catalogues and schedule of prices of Pianos forwarded to any address, free of charge. feb14 3mos V&S

SAMUEL MARSHALL [illegible] [CHARLES F ILSLEY

The Reason why it Succeeds.

THE MUSTANG LINIMENT has attained its enormous popularity, and almost universal use, simply because it gives better satisfaction, accomplishes more good, relieves more pain, and heals more wounds and sores than any other preparation ever before offered to the afflicted. Every bottle that is used, speaks for itself—tells its own tale in the relief it gives, and the cure it effects. And then one who has suffered perhaps long years with pain, without hope of relief, and finds in this Liniment an almost instantaneous remedy, cannot help but speak in its praise and recommend it in the highest terms to all that he sees suffering. It needs no other recommendation than a trial.—See advertisement in another column.

A WONDERFUL DISCOVERY has recently been made by Dr Curtis, of [illegible], in the treatment of Consumption, Asthma and all diseases of the lungs. We refer to "Dr Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup." With this new method Dr C has restored many afflicted ones to perfect health, as an evidence of which, he has innumerable certificates. Speaking of the treatment a physician remarks—"It is evident that inhaling—constantly breathing an agreeable healing vapor, the medicinal properties must come in direct contact with the whole of the aerial cavity of the lungs, and thus escape the many and varied changes produced upon them when introduced into the stomach, and subjected to the process of digestion. The Hygeana is for sale at all the druggists throughout the country."—New York Dutchman, Jan 14th.

See advertisement of Medicated Inhalation in another column of this paper. mr8-lyrd&w

A STRANGE THING.

Falsehood in these days is not strange. Imposition and fraud are not strange. But honesty and truth, especially in speculative business are wonderful. For this reason, DR A L ADAMS' LIVER BALSAM is fixing the gaze of thousands upon its sure, unvarying and surprising effects in the removal of disease. It promises and fulfills. It promotes excretion in unison with nature's own efforts, and thus expels the very impurities which, being retained generate disease. This compound is considered by those who have used it the greatest medical discovery known. Its praise is declared from the North the South, and from the East to the West. It is true! It is true!

See Dr A L Adams advertisement in this paper. feb13 1m

HOLLOWAY'S PILLS—An Admirable Remedy for the Cure of Bile, Indigestion and Liver Complaints.—An American lady, the widow of an officer in the E I C Service, had been residing many years in Calcutta, where her liver and stomach had become so deranged that she could with difficulty digest any kind of food. She suffered almost unceasingly from sick headache, nervousness and lowness of spirits, the results of a debilitated constitution. The medical aid she had there was of no avail, and her friends advised her to take up her residence at her sister's, in Savannah, Georgia. The latter lady persuaded her to have recourse to Holloway's Pills which in about six weeks restored her to sound and perfect health, to the astonishment of her benevolent sister who had given up all hope of her recovery.

NOTICE TO STOCKHOLDERS

Office of the La Crosse & Milwaukee Railroad Co., MILWAUKEE, February 8, 1855

NOTICE IS HEREBY GIVEN, That the following additional instalments are required to be paid on subscriptions to the Capital Stock of the LaCrosse and Milwaukee Railroad Company, viz: on Shares subscribed by persons residing east of Wisconsin River, ten per centum payable on the first day of April next, and also the further sum of ten per centum on all such Stock, payable on the first day of June next.

Upon Stock subscribed by persons residing west of Wisconsin River, not heretofore assessed, an instalment of twenty per cent is required to be paid on the first day of June next.

The said payments to be made at the office of the Treasurer of the Company, in the City of Milwaukee.

By order of the Board of Directors

☞ Three children of Mrs Brown, residing in Pine street St. Louis, Missouri, by a most remarkable coincidence were scrofulously inclined, the eldest, (Jane) most particularly so, and the mother finding such to be the case, did all in her power to relieve the sufferer, but in vain, she became worse, the blood of the others was equally impure, and they all three were so bad at last, as to become quite an object of horror to their friends—The mother, about eight weeks ago, put them through a course of Holloway's Pills and Ointment, and strange, yet true it is, that their blood became thoroughly purified, and the scrofulous symptoms disappeared. They are now all three in excellent health to the astonishment and delight of their affectionate parents.

CAPITAL, - - - - $2,500,000.

Guarantee Fund, $100 000 Deposited with the Comptroller of the State of New York.

The advantages offered by this Company are many, and the public are invited to call upon the Agent and make themselves acquainted with the System adopted by the Company, when they will be better able to decide whether Life Insurance is desirable or not, and at what Office it is their interest to insure.

The many reasons why Fire and Marine Insurance should be adopted, are incontrovertible, and Life Insurance, while it in no way interferes with, or undervalues these important institutions has claims which no other system of insurance can have. Human existence must on consideration, enjoy a much higher estimate than worldly property.

While the representative of a family lives, (although neglect to insure his property, he becomes bankrupt,) he supports his family, but at his death, it deals their means of support, unless he has saved them from want by an insurance on his life, which may be done by the payment of a small annual premium, the payment of which has not diminished his own worldly comfort during life.

If young, the annual payment will be light, and if it share with profits, the policy will be constantly growing more valuable, though the premium is not increased.

Clergymen and others who have a stated and regular income, should insure, well knowing that at their death their families may be left destitute.

Men engaged in mercantile or manufacturing pursuits ever varying and uncertain in their issues, should insure.

The farmer who has still a mortgage on his farm, should insure, at least to the extent of it, thereby enabling his family to pay off the debt in case of his death.

OPPOSITION TO MONOPOLY.

Music at Greatly Reduced Rates

NOTWITHSTANDING the combination of music dealers to keep up the prices of non-copyright music, against the interests of native composers and their refusal to extend to Mr Waters the courtesies of the trade, he is making immense sales—having abundant evidence that he has public countenance and support in his opposition to the Great Monopoly and in his efforts to aid Native Talent, and to adopt the national Currency. His stock of American and European music is immense, and the catalogue of his own publications is one of the largest and best selected in the United States. He has also made a Great Reduction in the prices of Pianos, Melodeons and Musical Instruments of all kinds. Superior toned 6⅛ octave pianos for $175, $200 and $225, interior of as good quality and instruments as strong and as durable as those which cost $500. Pianos of every variety of style and price up to $1000, comprising those of ten different manufactories, among them the celebrated modern improved Horace Waters Pianos, and the first premium Æolian Pianos of T. Gilbert & Co.'s make (owners of the Æolian patent). Second-hand Pianos at great bargains. Prices from $10 to $150. Melodeons from five different manufactories, including the well known S. D. & H. W. Smith's melodeons (tuned the equal temperament) the best make in the United States. Prices $45, $60 $75, $100 $115, $125, and $150. Smith's Double Bank Melodeons, $200. USE THE

Magic Impression Paper!

For Writing without Pen or Ink, Copying Leaves, Plants, Flowers, Pictures, Patterns for Embroidery, Marking Linen Indelibly, and

MANIFOLD WRITING.

THIS ARTICLE IS ABSOLUTELY THE BEST FOR [illegible] in the known world, for a small quantity folded and placed in the pocket constitutes a travelling [illegible] which cannot be broken. No pen is needed, for any stick sharpened to a point, writes equally as well as the best gold pen in the universe. For drawing it is unequalled. It is indeed, the whole art of Drawing and Painting—taught in ONE LESSON. Any leaf, plant or flower can be transferred to the pages of an album, with a minute and distinct resemblance of nature. With equal facility, pictures and embroidery patterns are taken, and have received the highest eulogiums from the fair sex, and indeed a more tasteful present for a lady could not be produced.

This Magic Paper will also mark Linen, or other articles, so as to remain perfectly indelible. All the washing in the world fails to bring it out. Any child can use it with perfect ease. With this Magic Paper, likewise, one or four copies of every letter written can be secured without any additional labor whatever, making it the cheapest and most convenient article extant. It is used to great advantage by reporters of the public press, telegraphic operators and [illegible]

Each package contains four different colors—Black, Blue, Green, and Red, with full and printed instructions, for all to use, and will last sufficiently long to obtain five hundred distinct impressions.

It is put up in beautifully enamelled colored envelopes, with a truthful likeness of the Proprietor attached. Each and every package warranted

Price—$2 a Dozen, or, Five for One Dollar. Single packages 25 Cents. Address, post-paid,

PATENT MEDICINES.

CHERRY PECTORAL,

For the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

AMONG the numerous discoveries Science has made in this generation to facilitate the business of life—increase its enjoyments, and even prolong the term of human existence, none can be named of more real value to mankind, than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt, that no medicine or combination of medicines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on, to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures effected by its use, but we would present the following, and refer further enquiry to my American Almanac, which the Agent below named, will always be pleased to furnish free, wherein are all particulars, and indisputable proof of these statements.

Office of Transportation, Laurens R. R., S. C., Aug [illegible], '53

DR. J. C. AYER. Dear Sir,—My little son, four years old, has just recovered from a severe attack of malignant Scarlet Fever, his throat was rotten, and every person that visited him pronounced him a dead child. Having used your CHERRY PECTORAL, in California, in the winter of 1850, for a severe attack of Bronchitis, with entire success, I was induced to try it on my little boy. I gave him a teaspoonful every three hours, commencing in the morning, and by 10 o'clock at night, I found a decided change for the better, and after three days use, he was able to eat or drink without pain.

Its use in the above named disease will save many a child from a premature grave, and relieve the anxiety of many a fond parent. For all affections of the Throat and Lungs I believe it is the best medicine extant. A feeling of the deepest gratitude prompts me in addressing you these lines—but for your important discovery, my little boy would now have been in another world.

I am yours, with great respect

J. D POWELL, Supt Trans., L. R. R.

Rocky Hill, Somerset Co, N J, July 21, 1852

DR. J. C. AYER.—Since your medicine has become known here it has a greater demand than any other cough remedy we have ever sold. It is spoken of in terms of unmeasured praise by those who have used it, and I know of some cases where the best they can say of it is not too much for the good it has done. I take pleasure in selling it, because I know that I am giving my customers the worth of their money, and I feel gratified in seeing the benefit it confers.

Please send me a further supply, and believe me

Yours, with respect, JOHN C. WHITLOCK.

P. S.—Almost any number of certificates can be sent you if you wish it.

Windsor, C. W., June 2[illegible], 1855

DR. J. C. AYER.—Sir.—This may certify that I have used your CHERRY PECTORAL for upwards of one year, and it is my sincere belief that I should have been in my grave ere this time if I had not. It has cured me of a dangerous affection of the lungs, and I do not overstate my convictions when I tell you it is a priceless remedy.

Yours very respectfully,

D. A. McCLURE, Attorney at Law

Wilkesbarre, Pa., Sept. 8, 1850

DR. J. C. AYER.—My dear sir.—Your medicine is much approved by those who have used it here, and its composition is such as to insure and maintain its reputation. I invariably recommend it for pulmonary affections, as do many of our principal physicians. I am your friend,

MEXICAN MUSTANG LINIMENT

THIS EXTRAORDINARY MEDICINE IS STILL working wonders throughout the World—eradicating everything in the form of disease that comes within the circle of its influence.

The People Themselves

have long since adopted it as the only external remedy they could rely upon and the indisputable testimony of thousands is fast sweeping away

The Prejudices of the Faculty.

It is extensively used by the Ladies,
It is used by Mechanics and Laboring men,
It is used in families and factories,
It is used expressly by all Express Companies,
It is used by Farmers and Livery stable keepers,
It is used by everybody, and all speak in its praise,
Where it is used, pain cannot exist,
The benumbed limbs are made elastic,
The deep ulcers and frightful sores are healed,
The unstrung nerves are made to vibrate with joy!

Use the Mustang Liniment,

is the spontaneous advice of all

It has cured more cases of

Rheumatism

than any other medicine ever used. Its efficacy in this terrible disease is acknowledged by all who have used it. It not only cures the complaint but appears to give vigor and elasticity to the limbs, before unknown, thus performing a double office.

For contractions of the limbs, stiffness of the joints and muscles, hard lumps, swellings and inflammations, it is unrivalled in the power and efficacy of its operations.

For Bruises, Sprains, Cuts, Scalds and Burns, but a few applications are necessary in order to effect a total cure.

Cancer, or Scrofulous Sores, Tetter, Ringworms, Salt Rheum, Scurvy, Erysipelas, Boils, and Eruptions,

can generally be removed in a few days—and the worst cases can be cured in a few weeks at the farthest. Persons afflicted with these diseases, should be careful in getting the right article to cure them.

Use it upon Your Horses,

for spavin, splint, ring-bone, fistula, wind galls, big heads, bruises, strains, string halt, scratches, cracked heels, sweeney, saddle, collar, or harness galls, hard lump or tumors, film or other diseases of the eye, poll-evil, &c.

The finest horses in the city of New York will be found in the stables of the various Express Companies—and they all use

The Mustang Liniment,

totally discarding any other preparations of the kind, and have all given their certificate in its favor.

This we presume will be a sufficient guarantee to induce every one who owns a horse, to give the Mustang a trial.

THERE is no Druggist or Country Store keeper
Who pretends to keep medicine at all,
But what keeps a constant supply of the
Mexican Mustang Liniment.

The small size retail for 25 cents per bottle
The medium sized retail for 50 cents per bottle,
The large sized retail for one dollar per bottle,
The medium hold three times as much as the small.
The large holds nearly three times as much as the medium,
Therefore the largest bottles are the cheapest

THE AMERICAN'S FRIEND

HOLLOWAY'S PILLS.

To the Citizens of the United States.—

I most humbly and sincerely thank you for the immense patronage which you have bestowed upon my Pills. I take this opportunity of stating that my Ancestors were all American Citizens, and that I entertain for all that concerns America and the Americans, the most lively sympathies, so much so that I originally compounded these Pills expressly to suit your climate, habits, constitutions, and manner of living, intending to establish myself among you, which I have now done, by taking premises in New York.

THOMAS HOLLOWAY,

38, Corner of Ann and Nassau Streets, New York.

THE BLOOD, LIVER AND BILIOUS COMPLAINTS

The Citizens of the Union suffer much from disorders of the Liver and Stomach. The fair sex, perhaps, the most handsome in the World, at a certain period, lose their health and good looks while yet in the hey-day of life. These evils may be effectually remedied by continually keeping the blood pure, and the Liver and Stomach in a healthy action, when life will flow smoothly. I say fearlessly, that health and life may be prolonged for years beyond the ordinary limits, if Holloway's Pills are taken to purify the blood, in accordance with the directions which accompany each Box.

CURE OF WEAKNESS & DEBILITY OF TEN YEARS STANDING.

Captain John Johnson, of Astor House, New York, suffered for ten years from a derangement of the Liver and Stomach, and was so reduced in strength that he never expected to go to sea any more, having tried every known remedy without deriving benefit. At last he had recourse to Holloway's Pills, which completely cured him, after using them for three months and he now enjoys the most perfect health.

These celebrated Pills are wonderfully efficacious in the following complaints—

Ague	Dropsy	Liver Complaints	Secondary Symptoms
Asthma	Dysentery	Lumbago	Tic Douloureux
Bilious Complaints	Erysipelas	Piles	Tumours
Blotches on the Skin	Female Irregularities	Rheumatism	Ulcers
Bowel Complaints	Fevers of all kinds	Retention of Urine	Venereal Affections
Colics	Fits	Scrofula, or King's Evil	Worms of all kinds
Constipation of the Bowels	Gout	Sore Throats	Weakness, from whatever cause, &c.
Consumption	Head ache	Stone and Gravel	
Debility	Indigestion		
	Inflammation		
	Jaundice		

Sold at the Establishment of Professor Holloway, 38, Corner of Ann and Nassau Streets, New York; also by all respectable Druggists and Dealers in Medicines throughout the United States, in Boxes, at 37½ cents, 87 cents, and $1,50 cents each. To be had Wholesale of the principal Drug Houses in the Union.

There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Box.

MEDICATED INHALATION

A NEW METHOD.

A MOST WONDERFUL DISCOVERY has recently been made by Dr. CURTIS for the cure of Asthma, Consumption, Bronchitis, Coughs, Colds, and all Lung Complaints, by Medicated Inhalation. Dr. CURTIS'S HYGEANA, or INHALING HYGEAN VAPOR and CHERRY SYRUP, has accomplished the most wonderful cures of Asthma and Consumption in the City of New York and vicinity for a few months past, ever known to man.—It is producing an impression on Diseases of the Lungs never before witnessed by the medical profession. (See certificates in hands of Agents.)

The Inhaler is worn on the breast, under the linen, without the least inconvenience, the heat of the body being sufficient to evaporate the fluid,—supplying the lungs constantly with a healing and agreeable vapor, passing into all the air cells and passages of the lungs that cannot possibly be reached by any other medicine. Here is a case of

ASTHMA CURED.

BROOKLYN, N. Y., Dec. 20th, '53

For about eight years I have been severely afflicted with the Asthma; for the last two years I have suffered beyond all my powers of description, months at a time I have not been able to sleep in a bed, getting what rest I could sitting in my chair. My difficulty of breathing, and my sufferings, were so great at times, that for hours together my friends expected each hour would be my last. During the past six years I have had the aid and attendance of some of the most celebrated physicians, but have received no permanent benefit, and but little relief. I at length had the good fortune to procure Dr. Curtis's Hygeana or Inhaling Hygean Vapor and Cherry Syrup. At the time I first obtained it, I was suffering under one of my most violent attacks, and was in great distress, almost suffocating for want of breath. In less than ten minutes from the time I applied the Inhaler to my stomach, and took a teaspoonful of the Cherry Syrup, I was relieved in a great measure from the difficulty of breathing, and had a comfortable night. I have since continued it with the greatest possible benefit, and am now comparatively well. God only knows the amount of suffering this medicine has relieved me from. My advice to the suffering is,—TRY IT.

CONSUMPTION CURED.

NEW YORK, Dec 27th, 1853.

I came to New York in the ship Telegraph; my native place is St. John, New Brunswick; when I reached this city, my health was very poor, had a very bad cough, raised a great deal of matter, which was frequently mixed with blood, had pain in my left side, and was very weak and emaciated. My friends and physician pronounced my case Consumption, and beyond the reach of medicine. I accidentally heard of Dr. Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup, and obtained a package, which I verily believe was the means of saving my life.—Soon after wearing the Inhaler, I found it relieved the pressure on my lungs, and after a while the disease made its appearance upon the surface under the Inhaler. I take the Cherry Syrup as directed, and continued to do so, my cough gradually growing better, until it entirely left me, and I now consider myself cured. I still wear the Inhaler, as the use of it is rather pleasant, and believing it strengthening and purifying to the lungs, I feel unwilling at present to dispense with it.

JOHN WOOD

Sold by BOYD & PAUL, No 40 Cortlandt street, C. H. RING, corner of John street and Broadway, N. Y. Price $3 a package.

N. B.—Any person inclosing $3 to BOYD & PAUL, or CURTIS & PERKINS, New York, will receive a package containing a bottle of Hygean Vapor, one of Cherry Syrup, and an Inhaler, in a neat box, by express, free to any part of the United States, or four packages for $10. [illegible]

MEDICATED INHALATION!

CONSUMPTION CAN BE CURED, AS TREATED BY

DR. E. N. TRIST,

WITH HIS CELEBRATED

HYGEN & OXYGENIC VAPOR!

DR. TRIST, Graduate of the Royal College of Surgeons in London and the recipient of diplomas from the Lung Institution of Edinburgh, and Hotel des Invalides of Paris, having settled permanently in New York for the practice of his profession, begs leave to suggest to the citizens of the United States that several years of study and successful experiments in England and Scotland, as well as in the hospitals of Europe, with Consumption in all its forms, enable him to warrant, not only relief, but a complete cure to all those suffering with this great national disease.

Dr. TRIST deems it unprofessional to advertise, but others having represented themselves as the originators of the Inhalation Treatment, he would say to the afflicted that he alone is entitled to its first introduction, and would caution all against using the useless and dangerous compounds advertised by incompetent persons.

"Take up thy bed and walk!"

Dr. TRIST would say to those interested, that he has had manufactured, for the use of his patrons, his "Patent Inhaling Tubes," through which the vapor is conveyed to the parts affected, and which he earnestly recommends for the cheering results which have attended their use, and the fact that they may be used by the most feeble invalid without any unpleasant symptoms.

To those residing out of the city, Dr. Trist will forward one of the Inhaling Tubes, together with a package of the Vapor, sufficient to last for three months, accompanied with ample directions for use, on receipt of a letter containing Ten Dollars, and describing symptoms.

A cure is warranted in all stages of Consumption, Bronchitis, Asthma, and all other affections of the Throat, Lungs, and Air Passages. In case of failure, the money will be returned.

HIGHLY IMPORTANT ANNOUNCEMENT.

To the Afflicted Everywhere,

DR. A. L. ADAMS' LIVER BALSAM COMES GREETING!

DR. A. L. ADAMS' NEW CURE FOR DISEASE is awakening the inquiry in the minds of all who read it. How is it that Americans have been so long and so lavishly immured in darkness and ignorance on the subject of disease.

DR. A. L. ADAMS' LIVER BALSAM.

The great Panacea of Disease is offered to the people of the States and Territories for the entire cure of Liver Complaints in all stages, Bilious Fever, Ague and Fever, Chronic Lung Fever, Dropsical Affections, Cough, Consumption, Asthma, Jaundice, Bowel Complaints, Diarrhoea, Dysentery, Rheumatism, Piles, Scrofula, Salt Rheum, Dyspepsia, General Debility, Nervousness, Costiveness, Indigestion, Female Complaints, &c.

Dr. A. L. Adams' Liver Balsam now sustains the highest reputation of any remedy before the public and has proved to the most skeptical, beyond a shadow of doubt, that it is the only reliable medicine ever discovered (being purely vegetable) for the permanent cure of the above disease. The most skeptical have become its most sanguine votaries, and pronounce the Liver Balsam to be the only reliable harbinger of health to the afflicted everywhere.

Testimonials come up from every track [illegible] made, swollen with expressions of gratitude for the relief received by its use. And, in submitting this, the Liver Balsam is recommended to those suffering under the grasp of the monster disease, and at once procure one bottle of Dr. A. L. Adams' Liver Balsam.

The reader's attention is called to the perusal of the Medical Circular, which can be obtained of every agent throughout the United States, giving a clear description of the causes and cure of disease; also, of certificates of those who have tested its unparalleled ascendency over the diseases to which we are all subject.

USE THE
Magic Impression Paper!
For Writing without Pen or Ink, Copying Leaves, Plants, Flowers, Pictures, Patterns for Embroidery, Marking Linen Indelibly, and
MANIFOLD WRITING.
THIS ARTICLE IS ABSOLUTELY THE BEST FOR [illegible] Inkstand in the known world, for a small quantity folded and placed in the pocket constitutes a travelling [illegible] which cannot be broken. No pen is needed, [illegible] sharpened to a point, writes equally as well as the best gold pen in the universe. For drawing it is indispensable. It is indeed, the whole art of Drawing and Painting—taught in ONE LESSON. Any leaf, plant or flower can be transferred to the pages of an album, with a minute and distinct resemblance of nature. With equal facility, pictures and embroidery patterns are taken, and have received the highest eulogiums from the fair sex, and indeed a more tasteful present for a lady could not be produced.
This Magic Paper will also mark Linen, or other articles, so as to remain perfectly indelible. All the washing in the world fails to bring it out. Any child can use it with perfect ease. With this Magic Paper, likewise, one or four copies of every letter written can be secured without any additional labor whatever, making it the cheapest article extant. It is used to great advantage by reporters of the public press, telegraphic operators and hosts of others.
Each package contains four different colors—Black, Blue, Green, and Red, with full and printed instructions, for all to use, and will last sufficiently long to obtain five hundred distinct impressions.
It is put up in beautifully enamelled colored envelopes, with a truthful likeness of the Proprietor attached. Each and every package warranted.
Price—$2 a Dozen, or, Five for One Dollar. Single packages 25 Cents. Address, post-paid,
N. HUBBELL, 167 Broadway, N. Y.

PATENT MEDICINES.

CHERRY PECTORAL,
For the rapid Cure of
COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

AMONG the numerous discoveries Science has made in this generation to facilitate the business of life—increase its enjoyments, and even prolong the term of human existence, none can be named of more real value to mankind, than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt, that no medicine or combination of medicines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on, to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures effected by its use, but we would present the following, and refer further enquiry to my American Almanac, which the Agent below named, will always be pleased to furnish free, wherein are all particulars, and indisputable proof of these statements.

Office of Transportation, Laurens R. R., S. C., Aug 1, '51
DR J. C. AYER. Dear Sir,—My little son, four years old, has just recovered from a severe attack of malignant Scarlet Fever, his throat was rotten, and every person that visited him pronounced him a dead child. Having used your CHERRY PECTORAL, in California, in the winter of 1850, for a severe attack of Bronchitis, with entire success, I was induced to try it on my little boy. I gave him a teaspoonful every three hours, commencing in the morning, and by 10 o'clock at night, I found a decided change for the better, and after three days use, he was able to eat or drink without pain.
Its use in the above named disease will save many a child from a premature grave, and relieve the anxiety of many a fond parent. For all affections of the Throat and Lungs I believe it is the best medicine extant. A feeling of the deepest gratitude prompts me in addressing you these lines—but for your important discovery, my little boy would now have been in another world.
I am yours, with great respect
J. D. POWELL, Supt Trans., L. R. R.

DR. J. C. AYER.—Since your medicine has become known here it has a greater demand than any other cough remedy we have ever sold. It is spoken of in terms of unmeasured praise by those who have used it, and I know of some cases where the best they can say of it is not too much for the good it has done. I take pleasure in selling it, because I know that I am giving my customers the worth of their money, and I feel gratified in seeing the benefit it confers.
Please send me a further supply, and believe me
Yours, with respect, JOHN C. WHITLOCK.
P. S.—Almost any number of certificates can be sent you if you wish it.

Windsor, C. W., June 2, 1855
DR. J. C. AYER—Sir:—This may certify that I have used your CHERRY PECTORAL for upwards of one year, and it is my sincere belief that I should have been in my grave ere this time if I had not. It has cured me of a dangerous affection of the lungs, and I do not overstate my convictions when I tell you it is a priceless remedy.
Yours very respectfully,
D. A. McLURE, Attorney at Law

Wilkesbarre, Pa., Sept. 2, 1850
DR. J. C. AYER—My dear sir:—Your medicine is much approved by those who have used it here, and its composition is such as to insure and maintain its reputation. I invariably recommend it for pulmonary affections, as do many of our principal physicians. I am your friend,

MEXICAN MUSTANG LINIMENT
THIS EXTRAORDINARY MEDICINE IS STILL working wonders throughout the World—eradicating everything in the form of disease that comes within the circle of its influence.
The People Themselves
have long since adopted it as the only external remedy they could rely upon and the indisputable testimony of thousands is fast sweeping away
The Prejudices of the Faculty.
It is extensively used by the Ladies,
It is used by Mechanics and Laboring men,
It is used in families and factories,
It is used expressly by all Express Companies,
It is used by Farmers and Livery stable keepers,
It is used by everybody, and all speak in its praise,
Where it is used, pain cannot exist,
The benumbed limbs are made elastic,
The deep ulcers and frightful sores are healed,
The unstrung nerves are made to vibrate with joy!
Use the Mustang Liniment,
is the spontaneous advice of all
It has cured more cases of
Rheumatism
than any other medicine ever used. Its efficacy in this terrible disease is acknowledged by all who have used it. It not only cures the complaint but appears to give vigor and elasticity to the limbs, before unknown, thus performing a double office.
For contractions of the limbs, stiffness of the joints and muscles, hard lumps, swellings and inflammation, it is unrivalled in the power and efficacy of its operations.
For Bruises, Sprains, Cuts, Scalds and Burns, but a few applications are necessary in order to effect a total cure.
Cancer, or Scrofulous Sores, Tetter, Ringworms, Salt Rheum, Scurvy, Erysipelas, Boils, and Eruptions,
can generally be removed in a few days—and the worst cases can be cured in a few weeks at the farthest. Persons afflicted with these diseases, should be careful in getting the right article to cure them.
Use it upon Your Horses,
for spavin, splint, ring-bone, fistula, wind galls, big heads, bruises, strains, string halt, scratches, cracked heels, sweeney, saddle, collar, or harness galls, hard lumps or tumors, film or other diseases of the eye, poll-evil, &c.
The finest horses in the city of New York will be found in the stables of the various Express Companies—and they all use
The Mustang Liniment,
totally discarding any other preparations of the kind, and have all given their certificate in its favor.
This we presume will be a sufficient guarantee to induce every one who owns a horse, to give the Mustang a trial.
THERE is no Druggist or Country Store keeper
Who pretends to keep medicine at all,
But what keeps a constant supply of the
Mexican Mustang Liniment.
The small size retail for 25 cents per bottle
The medium sized retail for 50 cents per bottle,
The large sized retail for one dollar per bottle,
The medium hold three times as much as the small.
The large holds nearly three times as much as the medium,
Therefore the largest bottles are the cheapest.

PATENT MEDICINES.
THE AMERICAN'S FRIEND

HOLLOWAY'S PILLS.
To the Citizens of the United States—
I most humbly and sincerely thank you for the immense patronage which you have bestowed upon my Pills. I take this opportunity of stating that my Ancestors were all American Citizens, and that I entertain for all that concerns America and the Americans, the most lively sympathies, so much so that I originally compounded these Pills expressly to suit your climate, habits, constitutions, and manner of living, intending to establish myself among you, which I have now done, by taking premises in New York THOMAS HOLLOWAY,
80, Corner of Ann and Nassau Streets, New York.

THE BLOOD, LIVER AND BILIOUS COMPLAINTS
The Citizens of the Union suffer much from disorders of the Liver and Stomach. The fair sex, perhaps, the most handsome in the World, at a certain period, lose their teeth and good looks while yet in the hey-day of life. These evils may be effectually remedied by continually keeping the blood pure and the Liver and Stomach in a healthy action, when life will flow smoothly. I say fearlessly, that health and life may be prolonged for years beyond the ordinary limits, if Holloway's Pills are taken to purify the blood, in accordance with the directions which accompany each Box.

CURE OF WEAKNESS & DEBILITY OF TEN YEARS STANDING.
Captain John Johnson, of Astor House, New York, suffered for ten years from a derangement of the Liver and Stomach, and was so reduced in strength that he was expected to go to sea any more, having tried every known remedy without deriving benefit. At last he had recourse to Holloway's Pills, which completely cured him, after using them for three months and he now enjoys the most perfect health.

These celebrated Pills are wonderfully efficacious in the following complaints—

Ague	Dropsy	Liver Complaints	Secondary Symptoms
Asthma	Dysentery	Lumbago	Tic Douloureux
Bilious Complaints	Erysipelas	Piles	Tumours
Blotches on the Skin	Female Irregularities	Rheumatism	Ulcers
Bowel Complaints	Fevers of all kinds	Retention of Urine	Venereal Affections
Colics	Fits	Scrofula, or King's Evil	Worms of all kinds
Constipation of the Bowels	Gout	Sore Throats	Weakness, from whatever cause, &c.
Consumption	Head ache	Stone and Gravel	
Debility	Indigestion		
	Inflammation		
	Jaundice		

☞ SOLD AT THE ESTABLISHMENT OF PROFESSOR HOLLOWAY, 80, Corner of Ann and Nassau Streets, New York; also by all respectable Druggists and Dealers in Medicines throughout the United States, in Boxes, at 37½ cents, 87 cents, and $1,50 cents each. To be had Wholesale of the principal Drug Houses in the Union.
☞ There is a considerable saving by taking the larger sizes.
N. B.—Directions for the guidance of patients in every disorder are affixed to each Box.

MEDICATED INHALATION
A NEW METHOD.
A MOST WONDERFUL DISCOVERY has recently been made by Dr. CURTIS for the cure of Asthma, Consumption, Bronchitis, Coughs, Colds, and all Lung Complaints, by Medicated Inhalation. Dr. CURTIS'S HYGEANA, or INHALING HYGEAN VAPOR and CHERRY SYRUP, has accomplished the most wonderful cures of Asthma and Consumption in the City of New York and vicinity for a few months past, ever known to man.—It is producing an impression on Diseases of the Lungs never before witnessed by the medical profession. (See certificates in hands of Agents.)
The Inhaler is worn on the breast, under the linen, without the least inconvenience, the heat of the body being sufficient to evaporate the fluid,—supplying the lungs constantly with a healing and agreeable vapor, passing it to all the air cells and passages of the lungs that cannot possibly be reached by any other medicine. Here is a case of

ASTHMA CURED.
BROOKLYN, N. Y., Dec. 26th, '53
For about eight years I have been severely afflicted with the Asthma; for the last two years I have suffered beyond all my powers of description, months at a time I have not been able to sleep in a bed, getting what rest I could sitting in my chair. My difficulty of breathing, and my sufferings, were so great at times, that for hours together my friends expected each hour would be my last. During the past six years I have had the aid and attendance of some of the most celebrated physicians, but have received no permanent benefit, and but little relief. I at length had the good fortune to procure Dr. Curtis's Hygeana or Inhaling Hygean Vapor and Cherry Syrup. At the time I first obtained it, I was suffering under one of my most violent attacks, and was in great distress, almost suffocating for want of breath. In less than ten minutes from the time I applied the Inhaler to my stomach, and took a teaspoonful of the Cherry Syrup, I was relieved in a great measure from the difficulty of breathing, and had a comfortable night. I have since continued it with the greatest possible benefit, and am now comparatively well. God only knows the amount of suffering this medicine has relieved me from. My advice to the suffering is,—TRY IT.

CONSUMPTION CURED.
NEW YORK, Dec 27th, 1853.
I came to New York in the ship Telegraph; my native place is St. John, New Brunswick; when I reached this city, my health was very poor, had a very bad cough, raised a great deal of matter, which was frequently mixed with blood, had pain in my left side, and was very weak and emaciated. My friends and physician pronounced my case Consumption, and beyond the reach of medicine. I accidentally heard of Dr. Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup, and obtained a package, which I verily believe was the means of saving my life.—Soon after wearing the Inhaler, I found it relieved the pressure on my lungs, and after a while the disease made its appearance upon the surface under the Inhaler. I took the Cherry Syrup as directed, and continued to do so, my cough gradually growing better, until it entirely left me and I now consider myself cured. I still wear the Inhaler, as the use of it is rather pleasant, and believing it strengthening and purifying to the lungs, I feel unwilling at present to dispense with it. JOHN WOOD
Sold by BOYD & PAUL, No. 40 Cortlandt street, C. H. RING, corner of John street and Broadway, N. Y. Price $3 a package.
N. B.—Any person inclosing $3 to BOYD & PAUL, or CURTIS & PERKINS, New York, will receive a package containing a bottle of Hygean Vapor, one of Cherry Syrup, and an Inhaler, in a neat box, by express, free to any part of the United States, or four packages for $10. [illegible]

MEDICATED INHALATION!
CONSUMPTION CAN BE CURED, AS TREATED BY
DR. E. N. TRIST,
WITH HIS CELEBRATED
HYGEN & OXYGENIC VAPOR!
DR. TRIST, Graduate of the Royal College of Surgeons in London and the recipient of diplomas from the Lung Institution of Edinburgh, and Hotel des Invalides of Paris, having settled permanently in New York for the practice of his profession, begs leave to suggest to the citizens of the United States that several years of study and successful experiments in England and Scotland, as well as the hospitals of Europe, with Consumption in all its forms, enable him to warrant, not only relief, but a complete cure to all those suffering with this great national disease.
Dr. TRIST deems it unprofessional to advertise, but others having represented themselves as the originators of the Inhalation Treatment, he would say to the afflicted that he alone is entitled to its first introduction, and would caution all against using the useless and dangerous compounds advertised by incompetent persons.
"Take up thy bed and walk!"
Dr. TRIST would say to those interested, that he has had manufactured, for the use of his patrons, his "Patent Inhaling Tubes," through which the vapor is conveyed to the parts affected, and which he especially recommends for the cheering results which have attended their use, and the fact that they may be used by the most feeble invalid without any unpleasant symptoms.
To those residing out of the city, Dr. Trist will forward one of the Inhaling Tubes, together with a package of the Vapor, sufficient to last for three months, accompanied with ample directions for use, on receipt of a letter containing Ten Dollars, and describing symptoms.
A cure is warranted in all stages of Consumption, Bronchitis, Asthma, and all other affections of the Throat, Lungs, and Air Passages. In case of failure, the money will be returned.

HIGHLY IMPORTANT ANNOUNCEMENT.
To the Afflicted Everywhere,
DR. A. L. ADAMS' LIVER BALSAM
COMES GREETING!
DR. A. L. ADAMS' NEW CURE FOR DISEASE is awakening the inquiry in the minds of all who read it. How is it that Americans have been so long and so lavishly immured in darkness and ignorance on the subject of disease.
DR. A. L. ADAMS' LIVER BALSAM.
The great Panacea of Disease is offered to the [illegible] of the States and Territories for the entire cure of Liver Complaints in all stages, Bilious Fever, Ague and Fever, Chronic Lung Fever, Dropsical Affections, Cough, Consumption, Asthma, Jaundice, Bowel Complaints, Diarrhoea, Dysentery, Rheumatism, Piles, Scrofula, Salt Rheum, Dyspepsia, General Debility, Nervousness, Costiveness, Indigestion, Female Complaints, &c.
Dr. A. L. Adams' Liver Balsam now sustains the highest reputation of any remedy before the public and has proved to the most skeptical, beyond a shadow of doubt that it is the only reliable medicine ever discovered (being purely vegetable) for the permanent cure of the above disease. The most skeptical have become its most sanguine votaries, and pronounce the Liver Balsam to be the only reliable harbinger of health to the afflicted everywhere.
Testimonials come up from every track it has made, swollen with expressions of gratitude for the relief received by its use. And, in submitting this, the Liver Balsam is recommended to those suffering under the iron grasp of the monster disease, and at once procure one bottle of Dr. A. L. Adams Liver Balsam.
The reader's attention is called to the perusal of the Medical Circular, which can be obtained of every agent throughout the United States, giving a clear description of the causes and cure of disease; also, of certificates from those who have tested its unparalleled ascendency over the diseases to which we are all subject.

Highly Important to Farmers.
The only Exclusive Farmers' Insurance Company in the West.

THE MADISON MUTUAL,
Located at Madison, Wisconsin.
THIS COMPANY CONTINUES TO TAKE RISKS upon Farm Property only, consisting of buildings of all kinds (belonging to farmers,) household furniture, grain in barns, live stock &c., from one to five years, at lower rates than most other responsible Companies
All losses promptly paid at the office as soon as proof is made thereon.
We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses, only your own of the same class, and all will be on an equal footing
Experience has shown that two thirds if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops, and such like property In this Company all such property is rejected POSITIVELY BY CHARTER THEM ALONE
Farmers look to your own interest, and insure in a Farmers' Company
We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last fourteen months we have not had a single dollar loss, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance

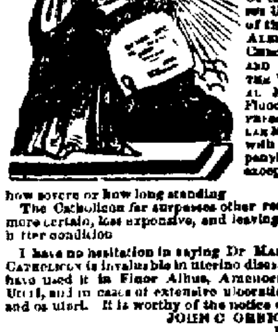
DR. J. B. MARCHISI'S
CELEBRATED CATHOLICON,
For the Relief and Cure of Suffering Females.



IT STANDS PRE-eminent for its curative powers in all the diseases for which it is recommended usually called
Female Complaints
Of these are Prolapsus Uteri, or Falling of the Womb; Fluor Albus, or Whites;—Chronic Inflammation, and Ulceration of the Womb Incidental Hemorrhage, or Flooding; Painful, Suppressed and Irregular Menstruation, &c., with all their accompanying evils, (Cancer excepted,) no matter how severe or how long standing
The Catholicon far surpasses other remedies in being more certain, less expensive, and leaving the system in a better condition
I have no hesitation in saying Dr Marchisi's Uterine Catholicon is invaluable in uterine diseases generally I have used it in Fluor Albus, Amenorrhœa, Prolapsus Uteri, and in cases of extensive ulceration of the vagina and os uteri. It is worthy of the notice of the Faculty

The Catholicon is doing good service here All the patients that have tried the medicine have been benefitted but one—and that one nothing will help.
Truly Yours,
WM LAIRD HAZLETT M. D.,
July 6th, 1854 New Philadelphia, Ohio.
I must say, from my own experience and personal observations in my practice, it has proved to be the best and safest remedy for which it is recommended, viz that of female weakness, such as Prolapsus Uteri, Fluor Albus, and all irregular and painful menstruation, and diseases of irritation of the female organs.

LATER FROM EUROPE.

Highly Important News!—Death of the Emperor of Russia!

The steamship Pacific with 10 days later dates from Europe, arrived in New York on Wednesday [illegible]. The details of the interesting news she brings will be found under the Telegraph head. Their importance, however, is completely dwarfed by the startling intelligence brought by the Africa, which arrived at Halifax yesterday. She left Liverpool on the 3d and on the evening previous news had been received in London of the death of the Emperor of Russia.

This is an event of the gravest importance [illegible] may change suddenly and entirely the [illegible] aspect of European affairs. Indeed the [illegible] Emperor the belligerents will now make peace. No details of the Czar's death have yet been received, but although rumors were [illegible], the more [illegible] that he died of apoplexy [illegible] few months. The late [illegible] at which the Africa's news [illegible] precludes all further comment this morning.

The New Hampshire Election.

The election in New Hampshire, on Tuesday last, for Governor, Legislature and Members of Congress, resulted in the most complete and [illegible] that has yet befallen the [illegible] Democracy. The Administration party [illegible] at all points. The Governor, both branches of the Legislature, and all three Congressmen are carried by the Opposition. The [illegible] two additional [illegible] in place of the Doughfaces who [illegible] represented the Granite State. [illegible] party, Democrat, Whig, Free Soil and Know-Nothing, [illegible] separate candidate for [illegible] and Metcalf, the K. N. candidate [illegible]. For Members of Congress, and [illegible] for members of the Legislature [illegible] were but two tickets in the field, Administration and Opposition, Slavery being [illegible] and dividing issue. The result is [illegible] pronounced against the Pierce Administration [illegible] "Democracy." Good for [illegible] Granite State.

Rapid Transmission of News.

It is one of the most striking marvels of this age of steam and Lightning, that the news of the death of the Emperor of Russia, which event occurred at St. Petersburg on the morning of the 2d of March, was received in Milwaukee on the evening of the 15th of March—but little more than thirteen days, and that two points nearly five thousand miles apart.

Important to Postmasters and to the Public.

We are requested to call special attention to the law, just passed by Congress, notifying the rates of postage, &c, particularly to those provisions requiring that all letters between places in the United States shall be prepaid from and after the 1st of April, 1855, by stamps or otherwise, and that from and after the first of January next, postmasters must place postage stamps upon all prepaid letters upon which such stamps may not have been placed by the writers, or which may not be enclosed in stamped envelops.

From and after the first of April 1855, the postage to be charged on each single letter for any distance in the United States, not exceeding three thousand miles, is three cents; and over three thousand miles, ten cents.

The law does not change the existing rates or regulations in regard to letters to and from Canada or other foreign countries, nor does it affect the franking privilege.

The provision in regard to the registration of valuable letters will be carried into effect, and special instructions issued to postmasters on the subject, as soon as the necessary blanks can be prepared and distributed.

We beg to suggest that the editors generally throughout the United States would render an essential service to their readers by calling attention to this subject.—[Wash. Sent. March 10.

Maine.—The newly organized "Republicans" [illegible] have swept [illegible] the Municipal elections in Maine on Monday. According to the Augusta Journal, Bath, [illegible], Gorham, Windham, [illegible], [illegible], Bowdoin, Brunswick, Richmond, [illegible] and Hallowell elected Republican town officers by overwhelming majorities.

The Rivers Rising.—The Illinois, Ohio and Mississippi are all open and rising rapidly. [illegible] rains hasten the washing away of the snow [illegible] Southern and South-Western States [illegible] a flood.

A Frank Acknowledgment.—The Waukesha [illegible] publishes and the Wisconsin [illegible] copies and commends the following [illegible] paragraph:

"It is a great misfortune to the country that [illegible] cannot be as summarily [illegible] from the places they occupy as the majority of the members of the 33d Congress have been by the People."

Hear! Hear!

The Winter Wheat.—The weather, thus far [illegible] the month of March, has been very favorable to the Winter Wheat, and the recent heavy fall of snow secures it against the injurious effects of the cold dry winds which usually prevail at this season of the year. We hear from various quarters that the [illegible] finely, having attained a good growth last fall and being well [illegible]. The breadth of land [illegible] larger than for any previous year [illegible] large crop and good [illegible] the Farmers could wish.

Damage by Ice.—The Rockford Register of the 15th says:—"Just before going to press we learn [illegible] that the bridge across the river at [illegible] has been swept away by the ice, as also that at Oregon, but are without particulars."

Plagiarism.—The Rev. W. H. Goodwin, K.N. Senator from the Oneida district, New York, delivered an oration on the last anniversary of Washington's birth-day, which was extensively copied and commented on by the Know-nothing press. The Utica Union has made the discovery that a large portion of the production is taken verbatim from Thomas Paine's eulogy on Washington, delivered at Newburyport, A. D. 1800. The Arch Infidel, as Paine is called, is rather a singular source from which a Christian divine should draw his inspiration. The discovery places the reverend gentleman in rather an unpleasant attitude before the public.—[Buffalo Rep.

The Sidewalks.—The sidewalks on many of the principal streets of our City are in a very bad condition, and solely in consequence of the culpable neglect of householders and others to clear them from ice and snow. We invite the [illegible] attention to this matter.

From Madison.

EDITORIAL CORRESPONDENCE OF THE SENTINEL.

Madison, March 14, 1855.

The copies of the Report of the State Geologist are making their appearance now a-days in considerable numbers. The work may be thoroughly scientific for aught that I know, but it is so prepared in such a manner that any abstract of it would be of any interest to our readers. I have devoted an hour or two to an examination of this report in the desire to get at something which, for general reading, would possess some value, but in vain. It is a dry detail of the position of veins, direction of strata, proportion of minerals, &c. &c., in this or that locality, and will disappoint a great many. Still, it may be [illegible] truly scientific, though not popular.

The present deficit in the State Treasury is about $60,000, and there is but about $10,000 due from the counties!

In Senate this morning—

Mr Hadley presented three remonstrances from the 5th Ward, Milwaukee, against the law as to grades.

The resolution to adjourn on the 22d was tabled, on motion of Mr Bashford. Mr. McGarry soon after introduced another to adjourn on the 26th. (It is all waste time and precious little Buncombe is to be made out of these resolutions. The Legislature will not adjourn until it has acted on the Report of Lunatic Asylum Committee, and how long that very important subject will occupy its time, it is impossible to foresee.)

Mr Hadley's resolution to print (Schoeffler & Wendt) 2000 copies of the Geological Report in German, was also tabled. Messrs Bowen, Harvey and Eldridge opposed the resolution principally on the ground of the late period of the session and the impossibility of obtaining the copies for distribution.

The list of bills passed is sent. The Census bill was amended in committee of the whole so as to have the enumeration taken by the Assessors instead of Town Clerks, and to have the Clerks of Boards of Supervisors superintend the business in the counties instead of the Sheriffs—but in Senate the former amendment was disagreed to, the latter remaining.

Assembly.—Bills were introduced:

By Mr O'Neil authorizing the 3d Ward of Milwaukee to build a bridge at Detroit street.

By Mr Davis, for a state road via Newport.

By Mr. Kirkpatrick, authorizing school district No. 4 in Exeter to levy a tax.

By Mr. Rose, amending a state road act.

By Mr. Randall, appropriating to J. A. Brown $220.

By Mr. Randall, appropriating to L. F. Kellogg $21,55.

(The last two bills are to pay the judgment [illegible] recovered by J. A. Brown in the Supreme Court for services in the Impeachment Trial. He sued, I believe, for $600; but a part had been paid.)

The only discussion of interest in the Assembly was upon the bill providing against the circulation of depreciated currency in this State, the question being upon its passage.

Mr. Rose opposed the bill as impracticable in its workings, and likely to work great injury to the holders of produce, in driving out of circulation, not only the worst currency, but that [illegible] that was good for all practical purposes.

Mr. Vilas supported the bill very earnestly, declaring his belief that an abundant supply of the best currency of New England and New York would come in, were the other driven out; and that if it were not driven out, those banks which were disposed to deal honestly with the people would go out of the field, and leave the field to those who had [illegible] such articles as were [illegible] by Mr. Rose. (This referred to a paragraph in the money article of the Sentinel of yesterday, in regard to the probable effect of this bill.—Judge Rose had used it in his remarks.)

Mr. Rose said that it would be found impracticable, that this bill would be in the end beneficial to the banks, but against the interests of the people.

Messrs. Stevens, Virgin, Judson and McIndoe also opposed the bill in its present shape. Mr. Gary made an earnest speech in favor.

Mr. O'Neil moved its reference to a Select Committee, so as to have it improved in some of its features; lost,—and the bill passed.

There is a general feeling among the members that they have passed a bill of doubtful policy, although they all, I believe, appreciate the necessity of providing in some manner against the circulation of the poor stuff with which the West has been flooded.

After the passage of bills, Mr. Randall, from the Judiciary Committee, (a majority, Messrs. Randall, Gary, and Cary, signing the Report) reported a bill, in answer to a resolution of the Assembly, prohibiting the use of the jails of this State in Fugitive Slave cases. It provisions are as follows:—

(I intended to make a summary of this bill, but it is long, and it is sufficient to say that it is carefully drawn so as to prevent any use of the jails or prisons of the state, for the confinement of persons charged as fugitive slaves, or persons charged with or convicted of offences, under either the law of 1793 or that of 1850, under a penalty of 1 year's imprisonment, or a fine of $1,000 to $5,000; and is about as tight as law or language can make it.)

The Report of the Committee will appear in the journal, and I will send it to you. It is not very long, but is to the point, and rests the propriety of the proposed action of the Legislature upon the sound principles which lie at the base of the common law, which, again, rest upon the law of God and of reason.

Mr. Eblatts gave notice of a minority report, stating that "if he did not base it upon the law of God and of nature, he hoped that it would be based upon the Constitution of the United States."

The general file of bills was gone through in committee of the whole. Among the bills ordered to a 3d reading after rising, was one in relation to the duties of the Bank Comptroller. It went through as it came from the Senate, and provides for the destruction of plates after the securities are withdrawn—for deducting the expenses of sale of securities from the amount realized—for a certificate, after sale and a deficiency shown, of the amount to be collected from the individual bonds of bankers—for suit, and collection and distribution of the amount due—for demanding additional security when the Comptroller thinks there is not sufficient—and for each a bond hereafter as shall provide for a confession of judgment.

At 3 P. M., the two houses met in Joint Convention to elect Regents of the University. On the first ballot, N. W. Dean was re-elected by a vote of 52, to 30 for L. B. Vilas, and 6 scattering.

On the other ballots, Messrs. L. B. Vilas, S. L. Rose, and A. Castleman, were chosen, they receiving the largest number of votes and a sufficient number of members changing their votes to give them a majority over all. There seemed not to be—as there ought not to be—any partisan feeling at work.

Our Supreme Court and its Critics.

For the Daily Sentinel.

Messrs. Editors:—Some conceited coxcomb, of more impudence than brains—one of Judge Miller's Court Commissioners, I imagine—has undertaken, in the News of Saturday, to instruct our Supreme Court of the State in the knowledge of the law. Of course, the cause and occasion of his homily is the discharge of Booth and Ryecraft. His only objection is, not that the Supreme Court decided wrong, but that they interfered at all. To prove that the Supreme Court should not have interposed its shield to protect the liberty of the citizens of our State from the arbitrary and illegal punishments inflicted by the District Court of the United States for this district, he says: "The District Courts of the United States are Courts of Record, and are not to be regarded as such Inferior Courts, that their proceedings in causes not within their jurisdiction, may be deemed void and questioned collaterally. And for an arrest by order of the Judge, in a case not within the jurisdiction, neither the party nor the Judge is liable."

Such monstrous absurdities, I venture to say, were never before uttered in print. What! say that the decision or judgment of any tribunal "in causes not within their jurisdiction," or "in a case not within the jurisdiction" is binding and conclusive until reversed! and that "neither the party nor the Judge is liable"!! Why it is the very first jurisdiction alone, in the Court that issues the process, in respect to both the subject matter and the party, that can protect the innocent officer who executes it. Let it appear upon the face of the process, that the Court has not jurisdiction of both the subject matter and the party, and all concerned in it, the Court which issues it, the officer who executes it, and the party who directs it to be done, are all trespassers.

This is such a familiar principle of law, and moreover so consonant with common sense and sound reason on the subject, that there is not a pettifogger in the land but what understands it. And this scribbler, Lex—(a clear misnomer), as he subscribes himself, is the—thing—who in a public newspaper, in the face of day—(I beg pardon—in the evening twilight)—presumes to lecture the Supreme Court of our State upon the legality of their decisions! Shades of Blackstone, Kent and Story! what a pity that you could not have lived to this day to enjoy the improved lights of legal science that issued in the columns of the Milwaukee News on the evening of Saturday, March 10th, 1855, over the signature of Lex!

TALIONUS.

More Taxation.

For the Sentinel.

Messrs. Editors:—Scarcely have the groans of a bleeding people, borne down by excessive taxation, caused by the rascally mismanagement of a city and State government—died away (or lulled, like the pauses in the hurricane, but the low sighings of exhausted nature, struggling to recuperate itself, are still heard), when a new set of destroyers are seeking to have the instrument lengthened, by which they reach the vitals of the people—the tether which circumscribed their movements for ill, must be elongated, and the screws of taxation torture tightened. In vain have the people of this city—once borne down to the brink of bankruptcy by the mismanagement of their Rulers—risen in their might and made a new charter, and had it passed by the law making power, setting bounds to the amount of each year's expenditure, and that within the limit of the amount authorized to be raised by taxation, and that taxation limited to a per centage on the valuation of the property within the city or ward, and making the officers personally liable for any excess of expenditure. What care the officials, borne into office upon some popularity, dictated by a caucus, and not influenced by their fitness or capacity for the position they seek—what care they for such restrictions?

When was a mismanaging and extravagant Alderman, expending money in excess of the restriction, called to an account? Never! These reflections are called up by seeing the proceedings of a meeting in the Second Ward, where it was resolved to make application to the legislature for authority to levy more taxes for Ward purposes this year, than the present limited charter allows. I have been led to inquire into the causes for this extraordinary movement, and have been told that the aldermen of the past year have expended so much more money than the taxes levied, that the Ward is deeply in debt, and that it will take nearly all of this year's taxes, to pay up the deficiencies of the last.

The newly elected Aldermen learning this, wish to place themselves in position to grind their own dull axes. They have therefore had a meeting of the voters of the Ward called to have a consultation, and at the meeting it was resolved to call upon the legislature for power to levy one per cent. more than the enormous amount now authorized. It would be well to know what proportion of the voters of the Ward attended said meeting. These meetings, called and controlled by a few interested persons, are generally but a poor expression of the sentiment of the people, and the legislature ought to be slow in acting upon such evidence. This applying to the Legislature for amendments to the City Charter has become a perfect nuisance.

Any one having an axe to grind, applies at once to the Legislature for an amendment to the City Charter that will allow him to grind it; and I will venture to say that of the multiplicity of amendments that have been made to that instrument within the last five years, not one in ten has been suggested and carried through, other than by a few individuals, immediately and personally interested. It is high time that this nuisance was abated.

Every citizen that feels any interest in the welfare of the City, and any desire to protect himself, from the bloodsuckers that are fastened upon its vitals, ought to protest against such action, and call upon the Legislature to let us alone in that particular, and pay no heed to the brood of cormorants that knock continually at the door of legislation, and whose cry, like the horse leech, is "give! give!"

Logic vs. Steam.—The Wisconsin insists that its logic was all right and that because a vessel had been within 300 miles of New York for 38 days and then got safely into port, therefore the Pacific ought to have encountered another Arctic disaster. Capt. Nye, of the Pacific, seems to have thought otherwise and brought his steamer in all right on Wednesday. But then he had not seen the Wisconsin's [illegible] allusion to the probability of his loss.

AMERICAN HISTORY.

LIGHT ON AN OBSCURE QUESTION.

Who Framed the Ordinance of '87?

[CONCLUDED.]

On the 15th of April—the day after the Grand Committee, of which Mr. King was a member, had reported to Congress the ordinance locating and disposing of the public lands, which became a law on the 20th May following—Mr. King thus acknowledges Mr. Pickering's letter:

"New York, April 15, 1785.

"The best return in my power to make you for your ingenious communications on the mode of disposing of the Western Territory, is to inclose [illegible] for your examination, the form of an ordinance reported to Congress on the subject. [illegible] the exclusion of Slavery from the new States [illegible] is just that it would be impossible to differ from them."

Of the report on the exclusion of Slavery here mentioned no trace is to be found. It must refer, one would suppose, to the resolution submitted by Mr. King himself on the 16th of March and committed on that day, but no allusion in the Journal, nor any other, than this casually in Mr. King's letter to Mr. Pickering, has been found.

[illegible] ascertain that Mr. K. did not abate his zeal on the subject, and when in Nov. '86 Nathan Dane became one of his colleagues from Massachusetts, and a new ordinance for governing the Western Territory came under the consideration of Congress, as has already been related, in September, '86, and in varying shape occupied its attention at times through the residue of that year and through the year 1787, until its final adoption in July of the last year, it is on the record of the journal that Mr. K. took constant and earnest part in its discussion. If then, in the ordinance as finally adopted, shall be found embodied specific propositions made by Mr. K., and by him only—and it shall appear, as now I am about to make it appear, that the authorship of the ordinance was Mr. Dane's and not Mr. Jefferson's, as has been so long claimed, and recently with emphatic and earnest argument by Gov. Coles, formerly of Illinois—the deduction would seem legitimate and conclusive that Mr. Dane, acting with his colleague, had accepted and embodied his suggestions in the ordinance.

Let the chief of these suggestions be briefly set forth: First, and most important, is that prohibiting Slavery. Mr. Jefferson's proviso was prospective; that of Mr. King, immediate; the proviso of the Ordinance of '87 was immediate, and in the identical words offered by Mr. King, 16th March, '85, except that his proviso reached to all the territory embraced in Mr. Jefferson's resolution of April, '84, while that of the ordinance was restricted, (necessarily, perhaps) to the precise territory which the ordinance was framed to govern. In other respects, the language is identical, changing only the words "shall have been personally guilty," as used by Mr. King, to "shall have been duly convicted" in the ordinance.—Mr. Dane nowhere appears on the record to have made any motion himself in Congress on the subject of Slavery, and, therefore, finding that of Mr. King in the journals, and having it urged upon his attention doubtless by Mr. K. himself, he adopted it as his own.

Art. III. of the fundamental articles, thus stipulates: "Religion, morality, and knowledge being necessary to good government and the happiness of mankind, schools and the means of education shall forever be encouraged."

Of this there is nothing in the Jefferson resolutions of April, '84, but the extracts given from Mr. Pickering's letters and the journals of Congress during '85-6, when the land ordinances were under discussion, show how perseveringly, and to a certain extent successfully, Mr. King labored to obtain, for the purposes of education and of religion, reserved townships in every range.

And last, and hardly perhaps second in importance to the first—the Proviso of Freedom—of a kin, indeed, with it, is that proviso, incalculable in its value as a bond of Union—incalculable in its value to commercial intercourse and to good neighborhood, which stipulates "that the navigable waters leading into the Mississippi and the St. Lawrence, and the carrying places between the same shall be common highways and forever free, as well to the inhabitants of the said territory as to the citizens of the United States and those of any other States that may be admitted into the Confederacy, without any tax, impost, or duty therefor."

This, in the first instance, was due to the far-reaching and statesmanlike suggestions of Timothy Pickering, and was introduced into Congress by the joint agency of Virginia and Massachusetts—States which then stood, as, during the war, they had stood, shoulder to shoulder on so many trying occasions. Mr. Pickering, in a letter to Rufus King, of 8th March, '85, discussing the ordinance, then under the consideration of Congress, for regulating the Western Territory, thus sagaciously writes:

"Water communications in that country will always be in the highest degree interesting to the inhabitants. It seems very necessary to secure the freedom of navigating those to all the inhabitants of all the States. I hope we shall have no Scheldts in this country."

So wise a suggestion was not lost upon his correspondent, and, accordingly, on the 12th March, 1786—while the ordinance "for ascertaining the mode of locating and disposing of the public lands in the Western Territory, was under consideration, Mr. Grayson, of Virginia, who, as the Journals show, acted very frequently in concert with Mr. King, and who separated from his colleagues, and voted Aye on Mr. King's Anti-Slavery proviso, on 16th March, of the same year—less than two months before—moved this resolution, which was seconded by Mr. King and adopted:

"*Resolved*, That the navigable waters leading into the Mississippi and the St. Lawrence and the carrying places between the same, be, and are hereby declared to be, common highways, and to be forever free, as well to the inhabitants of said Territory as to the citizens of the United States, and those of any other State that may be admitted into the Confederacy, without any tax, duty, or impost therefor."

This resolution, without the change of a letter, is embodied in the Ordinance of '87 and this we see that the two important provisos—the one against Slavery extension, and the other for the inviolable freedom to all American citizens in all time, and exempt from all impost or taxation, of the great navigable waters of the Union designed by God himself as the highways of nations, originally proposed or promoted by Mr. K.—were taken by Mr. Dane from the records of Congress, and introduced into his immortal ordinance. And now for the conclusive proof that this ordinance was his—prepared and drafted by him, and accepted unanimously by Congress, almost without alteration. This proof is in the letter of which the annexed is a full, literal and exact copy from the original, in my hands:

"New York, July 16, 1787.

To the Hon. Rufus King, Esq., Philadelphia:

Dear Sir: I am obliged to you for yours of the 11th inst. With pleasure I communicate to you what we are doing in Congress—not so much from a consciousness that what we do is well done, as from a desire that you may be acquainted with our proceedings. We have been much engaged in business for ten or twelve days past, for a part of which we have had eight States. There appears to be a disposition to do business, and the arrival of R. H. Lee is of considerable importance. I think his character serves, at least in some degree, to check the effects of the feeble habits and lax mode of thinking of some of his countrymen. We have been employed about several objects—the principal of which have been the "Government inclosed, and the Ohio purchase; the former, you will see, is completed, and the latter will probably be completed tomorrow. We tried one day to patch up M[illegible]'s system of W. government, started new ideas and committed the whole to Carrington, Dane, R. H. Lee, Smith and Kean. We met several times, and at last agreed on some principles—at least Lee, Smith and myself. We found ourselves rather pressed. The Ohio Company appeared to purchase a large tract of the federal lands—about six or seven millions of acres—and we wanted to abolish the old system and get a better one for the government of the country and we finally found it necessary to adopt the best system we could get.

All agreed finally to the inclosed plan, except A. Yates. He appeared in this case, as in most others, not to understand the subject at all. I think the number of free inhabitants, 60,000 which are requisite for the admission of a new State into the Confederacy, is too small; but, having divided the whole Territory into three states, this number appears to me to be less important. Each State, in the common course of things, must become important soon after it shall have that number of inhabitants. The Eastern State of the three will probably be the first, and more important than the rest, and will no doubt be settled chiefly by Eastern people; and there is I think, full an equal chance of its adopting Eastern politics. When I drew the ordinance, which passed, a few words excepted, as I originally formed it, I had no idea the States would agree to the sixth article, prohibiting Slavery, as only Massachusetts, of the Eastern States, was present and therefore omitted it in the draft; but finding the House favorably disposed on this subject, after we had completed the other parts, I moved the article, which was agreed to without opposition. We are in a fair way to fix the terms of our Ohio sale, &c. We have been upon it three days steadily. The magnitude of the purchase makes us very cautious about the terms of it and the security necessary to insure the performance of it.

We have directed the Board to examine and report upon Holker's affair.

Massachusetts Legislature was prorogued the 7th inst., having continued the Tender Act as it is called, to January, 1787, and having passed no other act of importance, except what I presume you have been respecting the raising of [illegible] the power of the Governor to pardon the rebels, &c. You ask me how I like my new colleagues. Sedgewick, you know, we all esteem; but I fear he will not make his attendance an object. Thatcher I am quite unacquainted with. I do not know whether Mr. Otis, at his period of life and under his misfortunes, will enter with vigor into Federal politics. I wish his account with the Union had been settled, &c.

Nothing more worth particular notice.

Your affectionate friend,

N. DANE.

Hon. R. King.

P. S.—States present: Massachusetts, New-York, New-Jersey, Delaware, Virginia, North Carolina, South Carolina and Georgia. Brother Holten is rather an invalid, is not able to take an active part in business, but I think supports pretty good Eastern politics."

This letter, now for the first time made public, was written, it will be seen [illegible] days only after the passing of the famous ordinance, while there was any controversy about it, and without consciousness, so far as the modest tenor of the whole letter can witness, of the priceless value of the act thus perfected. The course of the preparation, discussion and final adoption of the ordinance is related with entire simplicity. No doubt therefore, can now be entertained that Mr. Dane did frame the ordinance, throughout that it was he who directed the mode of presenting it to the House and carrying it through all its stages. Mr. Carrington, of Va., named first on the Committee, and, therefore, by usage its Chairman, did not, as appears by this letter, agree with the majority of the Committee, and, therefore, probably declined to report the ordinance, devolving that duty on Mr. Dane, who stood next on the list and who was in the majority. This explains, what heretofore has not been understood, how Mr. Dane, the second on the Committee, came to be its reporter; and the almost literal accuracy is hereby established of the account given by Daniel Webster, in his oration against Hayne, on the Foot resolutions, in the U. S. Senate, in 18—, that this ordinance "was drawn by Nathan Dane, and adopted by Congress without the slightest alteration;" "A few words excepted," says Mr. Dane, "and the ordinance passed as I originally formed it."

Having thus established the conclusiveness of the claim of authorship of the Ordinance of '87, for Nathan Dane, and shown that to Rufus King, and indirectly to Timothy Pickering, belongs the suggestion of the provisos contained in it against Slavery, and for aids to religion and knowledge, and for assuring forever the common use, without charge, of the great national highways of the Mississippi, the St. Lawrence, and their tributaries and their carrying places, to all citizens of the United States, and having, at the same time, by spreading in extenso before the readers of this chapter, both the resolution of Mr. Jefferson of April, '84, and the Ordinance of '87, put it within their reach to compare these instruments, and thus ascertain how much of one is borrowed from, or is suggested by, the other—it may be said, in conclusion, that in endeavoring to assign to each of the prominent actors in this great scene his due merit and responsibility, no desire has been felt—nor, it is hoped, manifested, even unconsciously—of magnifying any one at the expense of others. Enough of enduring reputation for each and all, must forever hover the shades of Dane and Jefferson, and Pickering and King, for the part taken by each in the long, laborious and eventful struggle, which had so glorious a consummation in the ordinance consecrating forever, by one comprehensive and unchangeable muniment, the very Heart of our land to Freedom, Knowledge and Union.

Veto of an Appropriation for the St. Clair Flats!—The Interests of the West Betrayed!—Letter from Hon. S. G. Haven.

The whole Northwest will be astounded, and indignant at the information conveyed in the following letter from our Representative in Congress. In this community no comment is perhaps needed on this proceeding, but we shall nevertheless do ourselves the satisfaction of denouncing it as it deserves in our to-morrow's issue.

Buffalo, March 12, 1855.

My Dear Sir:—Enquiry has been frequently made of me as to the fate of the Bill making an appropriation for improving the navigation of the St. Clair River. I send you this note for general information on that subject.

The Bill contained an appropriation of $45,000 for improving the navigation of St. Clair River, and also $40,000 for St. Mary's River, being the precise amount estimated by the Topographical Engineers to complete both works. The latter work was deemed nearly as important as the former, as the St. Mary's Canal will be completed this spring, and the vast resources of the Lake Superior region will be thrown open to agricultural and commercial enterprize.

The bill was drawn by Gen. Cass, after consultation with some of the friends of the measure and passed the Senate some time ago. It contained no other appropriation than the two above stated. It passed the House the last Friday of the session, under a suspension of the rules for that purpose, it taking two thirds of the members present and voting to suspend them.

So carefully and thoroughly had the matter been attended to by its friends in the House, that on a call for the ayes and noes on the motion to suspend, they were not ordered, and it takes only one fifth of the members voting to order them.

On the same day a bill was passed under suspension of the rules appropriating a little over $160,000 to clear out the harbor of Savannah, Georgia—some of the obstructions there are said to have been placed there by the General Government early in this century. No other river or harbor bill was passed during the session.

These two bills went to the President, and I believe Gen. Cass, and Messrs Stuart, Noble and Clark, of Michigan, all waited upon the President with information I furnished some of them from the Board of Trade here.

The result was, that the bill for the Savannah Harbor was signed and became a law. The bill for the St. Clair and St. Mary's River was not signed and did not become a law. The President having considered it, withheld his signature. Amongst other things, section 7 of Article 1 of the Constitution of the United States provides: "If any bill shall not be returned by the President within ten days (Sundays excepted) after it shall have been presented to him, the same shall be a law in like manner as if he had signed it, unless the Congress by their adjournment prevent its return, in which case it shall not become a law." Congress did adjourn—the signature of the President was withheld—the bill did not become a law. Judging from the vote in the House suspending the rule, if the bill had been returned by the President, with his objections—the House would have passed it over the veto by the constitutional requirement of two thirds of the members voting.

I am very Truly Yours,

S. G. HAVEN.

To the Editor of Commercial Advertiser, Buffalo.

That P. S. Proclamation.—The Berlin Courant copies Mayor Kilbourn's Election Proclamation Postscript and all and thus speaks to the question:

"The expression itself, aside from the horror connected with the proposed act, is in unquestionable bad taste, and [illegible] down from that dignity and self-respect with which every public officer should at least treat himself. We should not wonder after all if the Sentinel had been hoaxed—we hope so at any rate. We had entertained a very different opinion of Byron Kilbourn, but if it is really true, why we shall be compelled to follow suit and 'let him go.'"

Our friend of the Courant will discover that there was no "hoax" about it. On the contrary, his Honor entered into an elaborate defence of his famous P. S. in a communication to the Sentinel, and was graciously pleased to insinuate that our remarks upon it were hypocritical and prompted by personal feeling.

It is uncertain when a steamboat will leave for down the Lake. Private advices from Milwaukee say that not one of the bridge piers there is in a condition to land passengers upon, though some of them can be soon repaired.—Chicago Dem. Press, Thursday.

Most of the Piers at this port have sustained extensive damage from the storms and ice of the past winter; but the pier at which the mail boats usually land (Kellogg & Strong's), tho' it has suffered with the rest, is in a condition to be used. The speedy completion of the Straight Cut is more necessary than ever, now, to the Commercial Interests of our City. We hope that the new Council will hurry it up by every means in their power.

The Bank Bill.—In its desire to do something towards curing a great and admitted evil, the Assembly have passed what we cannot but consider as an injudicious and impracticable bill, in reference to the currency. The effect of the bill, if it becomes a law and is carried out, will be to exclude all Ohio, Canada, Illinois, Indiana money, mostly well secured, with the doubtful chance of getting unsecured Eastern currency to fill the gap. We hope that the Legislature will take a [illegible] sober second thought on the question, and not, by premature and ill-advised action, aggravate the evil which they are trying to remedy.

Doings in Joint Convention.

The Senate and Assembly met in Joint Convention, Wednesday afternoon, to elect four Regents of the University. The Madison Journal thus reports proceedings:

The House met at 2½ o'clock and took a recess until five minutes before 3 o'clock. At that time the Senate was announced and were seated in the Assembly Chamber. The roll was called and 20 Senators and 67 Assemblymen answered to their names.

Mr. P. H. Smith inquired if it was too late to reconsider the vote by which Charles Durkee was elected U. S. Senator. (Laughter.)

The President, Lt. Governor Lewis, decided that it was too late.

Mr. Bashford wished to know if it would not be in order to elect a United States Senator in place of Gov. Dodge.

[illegible] not in order.

The power of this Legislature was pretty extensive but he hardly thought it sufficient to elect another Senator. (Laughter.)

The convention then proceeded to elect four Regents of the University.

The first ballot resulted in the choice of N. W. Dean, of Madison.

The second ballot in the choice of L. B. Vilas, of Madison.

The third ballot in the choice of S. L. Rose, of Beaver Dam.

The fourth ballot resulted in the choice of Alfred L. Castleman, Delafield.

The convention then adjourned sine die.

From the Madison Journal.

The Judicial Election.—Speaking of the candidates for Associate Justice, the Manitowoc Demokrat, the organ of the Germans in that county, says, after mentioning Judge Crawford's views respecting the constitutionality of the Fugitive Slave Act, and Mr. Cole's well known love for free principles.

"Our choice between the two cannot be doubtful, since we stand by the rule to vote invariably for men who respect the principles of Freedom and detest Slavery. Such a man is Orsamus Cole."

Oshkosh Bank Notes.—The stocks deposited as security for the notes of this bank were sold at auction, by order of the Comptroller, on Monday last in Wall Street, and realized, deducting all expenses, enough to pay 96 cents on the dollar. The personal bond of the proprietors of the Bank is thought to be good for the rest.—Sun Telegraph.

Orsamus Cole.—We, this week, raise the name of this gentleman as our candidate for Associate Justice of the Supreme Court. We do it, not because he is a Republican, though we admit that as being far from an objection; but that alone is not enough to secure our vote for a judge. We support Mr. Cole because we believe him to be one of the best men in the State for the position. He is a man who in point of ability ranks among the first in the State; a lawyer of careful and extensive reading; cool and deliberate in his examination of all questions; and his past course has shown him to possess that rare, almost intuitive perception of the right which [illegible] to decide without time for deliberation; and above all, he is a man of irreproachable moral character—a man whose honesty was never questioned by friend or foe, and one who loves freedom and will protect the citizens of Wisconsin from the petty tyranny of Federal office holders, and Slave Hunters. For such a man we [illegible] every lover of Freedom to cast his vote on the day of election.—[Oshkosh Democrat.

It Rebounds the Wrong Way.—President Pierce for his capricious and indefensible action in regard to the act for the improvement of the St. Clair Flats, is severely but deservedly denounced by almost the entire press of the North West.—The Chicago Democratic Press thus concludes an article on the subject:

"If the President had not already consigned himself to political death by his course upon the Kansas-Nebraska bill and other matters, it would be well for him to heed the warning of the Free Press. As it is, however, he can neither make his condition better or worse by any official act he may perform. For him there is but one thing remaining to be done—and that, is preparation for a political oblivion deeper and more profound than has ever yet been reached by any American politician."

Post Mortem Examination of the Body of Bill Poole.—A most remarkable physiological fact came to light on the post-mortem examination of the body of Bill Poole by Drs. Parker and Carnochan, on the 9th inst. We copy from the Evening Post:

"They ascertained that the ball entered the breast between the fifth and sixth ribs, perforating the wall of the chest, extending through the pericardium, and was found buried in the center of the heart. The appearance of the heart when taken out indicated no bruise, although it was covered with inflammatory matter, and somewhat enlarged.

The ball was supposed at first to have passed through and lodged in the spinal bone, and a diligent search was made in that direction, but without success. Two small pieces of lead, about the size of the head of a pin, were found, one lying upon the side of the rib, where the ball entered the body—the other lying near the heart. Two pieces of wadding—one may have been a piece of his coat—were also found just under the fifth rib. While Dr. Carnochan was continuing his search for the ball in that direction, Dr. Parker took up the heart, for the purpose of learning the cause of its inflammation, when, to his astonishment, he found the ball imbedded in it."

It will be remembered that Poole lived several days after receiving the wounds of which he finally died.

A STRANGE THING.

Falsehood in these days is not strange. Imposition and fraud are not strange. But honesty and truth, especially in speculative business, are wonderful. For this reason, Dr. A. L. Adams' Lung Balsam is [illegible] effects in the removal of disease. It promises and fulfils. It promotes excretion in unison with nature's own efforts, and thus expels the very impurities which, being retained generate disease. This compound is considered by those who have used it the greatest medical discovery known. Its praise is declared from the North to the South, and from the East to the West. It is true!—It is true!

Holloway's Pills—An Extraordinary Remedy for the Cure of Bile, Indigestion and Liver Complaints.—An American lady, the widow of an officer in the H. E. I. C. Service, had been residing many years in Calcutta, where her liver and stomach had become so deranged that she could with difficulty digest any kind of food. She suffered almost unceasingly from sick headache, nervousness and lowness of spirits, the results of a debilitated constitution. [illegible] were of little avail, and her friends advised her to take up her residence at her sister's, in Savannah, Georgia. The latter lady persuaded her to have recourse to Holloway's Pills, which in about six weeks restored her to sound and perfect health, to the astonishment of her benevolent sister, who had given up all hopes of her recovery.

The Reason Why it Succeeds.

The Mustang Liniment has attained its enormous popularity, and almost universal use, simply because it gives better satisfaction, accomplishes more good, relieves more pain, and heals more wounds and sores than any other preparation ever before offered to the afflicted. Every bottle that is used speaks for itself—tells its own tale in the relief it gives, and the cures it effects. And then one who has suffered for [illegible] years with pain, without hope of relief, and finds in this liniment an almost instantaneous remedy, cannot help but speak in its praise, and recommend it in the highest terms to all that he sees suffering. It needs no other recommendation than a trial.

NOTICE TO STOCKHOLDERS.

Office of the La Crosse & Milwaukee Railroad Co., Milwaukee, February 8, 1855.

NOTICE IS HEREBY GIVEN, That the following additional Instalments are required to be paid on subscriptions to the Capital Stock of the La Crosse and Milwaukee Railroad Company, viz: on Shares subscribed by persons residing east of Wisconsin River, ten per centum payable on the first day of April next, and also the further sum of ten per centum on all such Stock, payable on the first day of June next.

Upon Stock subscribed by persons residing West of Wisconsin River, not heretofore assessed, an instalment of twenty per cent is required to be paid on the first day of June next.

The said payments to be made at the office of the Treasurer of the Company, in the City of Milwaukee.

By order of the Board of Directors.

☞ Three children of Mrs. Brown, residing in Pine street St. Louis, Missouri, by a most remarkable coincidence were scrofulously inclined, the eldest (Jane) most particularly so, and the mother finding such to be the case, did all in her power to relieve the sufferer, but in vain; she became worse, the blood of the others was equally impure, and they all three were as bad as it, as to become quite an object of horror to their friends.—The mother, about eight weeks ago, put them through a course of Holloway's Pills and Ointment, and strange, yet true it is, that their blood became thoroughly purified, and the scrofulous symptoms disappeared. They are now all three in excellent health to the astonishment and delight of their affectionate parents.

CITY MATTERS.

CIRCUIT COURT—March, [illegible]

A MURDERER SENTENCED.—At the opening of the Court this morning, the district attorney Mr Maloney, moved that sentence be passed upon Edward Fassbender, tried and convicted of the murder of Marteens Schwinter. The prisoner was brought up, and Mr Jas S Brown, acting as interpreter, the Judge proceeded to pronounce sentence upon him in substance as follows:

"Edward Fassbender, you have been tried, and found guilty of murder by a jury of your [illegible] about to pronounce sentence [illegible] have you anything to say why the sentence of the law should not be passed upon you."

The prisoner [illegible] stated that as he had no knowledge [illegible] he wanted time to review the proceedings [illegible] his case, and that he could prove [illegible]

[illegible] Mr Brown, that his counsel [illegible] the Supreme Court which [illegible] trial notwithstanding this [illegible] this was interpreted to the prisoner [illegible] proceeded: "You have had a [illegible] able counsel to defend you, the evidence [illegible] beyond a question that you [illegible] with a loaded pistol and shot [illegible] neighbours and killed him."

[illegible] the view taken by the [illegible] erroneous.

[illegible] not a shadow of doubt that [illegible] who was unarmed and who [illegible] no effort to injure you. [illegible] out of this world [illegible] his Maker. You will have [illegible] another world and to answer [illegible] tribunal—You have [illegible] of his country and have been tried and found guilty. You have shown no pity [illegible] penitence and exhibited no [illegible] that you have killed. This [illegible] punishment here, but as [illegible] God in the world to come [illegible] there. I am sorry for the [illegible] which you have placed yourself and [illegible] in Germany who I am [illegible]

The prisoner [illegible] protested his innocence.

[illegible] for innocence but [illegible] lost to a sense of justice [illegible] to our common humanity. [illegible] should have imbrued your [illegible] of your fellow citizen, and [illegible] no kindness for the man you [illegible] killed. I hope you will repent [illegible] a better man in the place to which you [illegible]."

The interpreters Messrs. BAUR and BROWN, were [illegible] to interpret the sentence as the [illegible])

The sentence of the Court is now to be pronounced [illegible] and it is this: That you be confined in the State Prison of this State at hard labor [illegible] forward during your natural life, and that [illegible] days of that time be passed in solitary confinement."

For prisoner [illegible] that his attorney had made attempts [illegible] in jail, but had been prevented [illegible] been thrown in the [illegible]

The steamer *Pacific*, Capt CLARK arrived here from [illegible] yesterday afternoon, about 5 o'clock with [illegible] passengers and a light freight. She returns again at 8 o'clock this morning and will continue to make her trips regularly, between the two ports. We learn from Capt CLARK that he [illegible] at Waukegan and Kenosha, but could not [illegible] Racine in consequence of the pier being partly carried away by the storm of last [illegible].

The *Pacific* was the first boat last year having arrived [illegible] Chicago on the 2d of March [illegible] this year.

We are indebted to Mr. STAPLES of the Chicago [illegible] arrived here in the *Pacific* last evening [illegible] for a copy of the *Tribune* of yesterday morning.

ARREST [illegible].—[illegible] Holler indicted this term of the Circuit Court for perjury was arrested [illegible] yesterday evening by dep. Sheriff Parsons and committed to jail.

ACCIDENT.—A Machinist by the name of Rees in the employ of the M & M R R had the fingers of [illegible] hand so badly cut on Wednesday by a circular saw that it became necessary to amputate all four fingers, close to the hand.

THREATENING NOTICES.—We understand that written notices were posted up about the depot buildings of the M & M R R yesterday morning giving [illegible] warning that if he does not raise the wages of the Laborers in the Company's employ they would try the virtues of "powder and fire." We hardly think that Mr [illegible] is likely to be impressed by such threats, nor do we suppose that those who make them would ever attempt to execute them.

DEATH OF THE CZAR!

Breadstuffs Dull—Consols Advanced.

Halifax, March 15

The royal mail steamship *Africa*, Capt Harrison, arrived here [illegible]. She left Liverpool on her regular day, 3d inst. Her advices, consequently, are four days later than those received by the Pacific.

The news is of the most startling character. The Emperor of Russia is DEAD. He expired suddenly at [illegible] o'clock, on the morning of Friday, the 2d instant. No details have been received, but there is no doubt of the fact, as it was announced in the House of Lords on Friday night, by Lord Clarendon, and in the Commons by [illegible]. [illegible] that he was assassinated, but it was thought that he died of apoplexy, after an attack of influenza. His illness was known in England before the news of his death was received, and caused a slight rise in the funds. The effect of his death of course had not transpired when the Africa left Liverpool. The Vienna Conference was to open on the 5th inst, and peace expectations were daily growing stronger.

From the seat of War there is no news of the least importance.

THE MARKETS.—Cotton dull. Breadstuffs generally quiet at quotations advised by *Pacific*. Indian Corn 6d@1s lower. Provisions dull and unchanged. Consols closed at 91¼, an advance.

Details of the Pacific News.

New York March 14

The Steamship PACIFIC reached her dock a little before 9 this morning. She brings Liverpool dates to the 27th ult. The Pacific arrived out on the 23d. The Africa and Sarah Sands had not arrived out, but the Pacific saw a steamer off the Skerries on p m of the 27th, supposed to be the Africa. The Union arrived off Cowes on the afternoon of the 26th.

Cotton quiet—some descriptions ⅛th lower—Breadstuffs slightly lower. Consols unchanged.

The news is of an interesting character. The *Palmerston Ministry* has fallen to pieces—Sir James Graham, Gladstone and Sidney Herbert having resigned, ostensibly on account of the passage of Mr Roebuck's motion for a committee to inquire into the management of the war.

Private Squabbles in the Cabinet are also believed to have been the cause. Rumor says the *Roebuck* party will not be satisfied without the impeachment of Raglan and one or more of the Ex-Ministry. Palmerston is much troubled in reconstructing the Cabinet, and has not fully concluded. Lord John Russell takes the Colonial Secretaryship as a stop gap, but completes his mission to Vienna. Rumor gives Lord Elgin (late Governor General of Canada,) a seat in the Cabinet—as President of the Board of control. The Earl of Carlisle (formerly Lord Morpeth,) as the Viceroy of Ireland. The new Chancellor of the Exchequer is Mr Lewis, an untried man. Sir Charles Wood takes Sir James Graham's place as first Lord of the Admiralty.

The proceedings in Parliament have touched on several points of interest. On the 19th, the royal assent was given to the North American Fisheries bill. The Convention between Great Britain and the Sultan, for the enlistment of the Turkish contingent, has been signed. An interesting debate arose on the motion to go into Committee on army estimates. Lord Palmerston conceded that the sufferings of the army in the Crimea, arose from physical causes in the power of no man to control. These sufferings were not confined to the British army. The Russian sick and wounded was 33 000!! He further argued that the debates in Parliament created so much indignation on the continent, that the Government had been prevented from getting the foreign enlistment act into operation.

LORD PALMERSTON announced that Lord Lucan had been recalled in consequence of his difficulty with Lord Raglan. The DUKE OF CAMBRIDGE had taken his seat in the House of Lords. In a debate on the conduct of the war, the Earl of Harrowby, expressed the opinion that a great mistake had been made in not calling the oppressed nations of Europe to aid in the present struggle. Lord PANMURE, now Secretary of War, replied that compulsory measures must unquestionably be resorted to fill the ranks of the service. In the House of Commons a discussion arose with regard to commerce with Russia since the commencement of the war.

It is stated in the debate, that under the present system of blockade the interior of Russia had suffered no injury, and that £4,000,000 had gone from Great Britain to that country. The right of search was argued as necessary, in order to prevent the introduction of Russian gold. It was deemed not advisable to lay before the House the correspondence between Great Britain and the United States on international arrangements during the time of the war. It was stated that the two countries were on most friendly terms.—Lord RAGLAN is said to have resigned, to avoid a recall. The Earl of Lucan and some other officers have been invited to resign. Members of the Cabinet express confident hopes that the pending negotiations will lead to an honorable peace, although war measures continue all over Europe.

Louis Napoleon seems determined to proceed to the Crimea. England and Austria have advised him to stay at home. Russia had declared war against Sardinia. It is stated—but not confirmed—that Tuscany has joined the Western Powers, but Naples has not.

Destitution in England had almost reached its height from the combined causes of an unusually severe winter, unusually high prices of all kinds of provisions, and a total stagnation of trade.—The poor are in a deplorable condition. Many thousand laborers have been for weeks without food, excepting the supplies of charity. A riot of two or three days' duration had occurred in Liverpool and London. Some disturbance occurred among the unemployed in other places, and much distress existed. At the sailing of the Pacific change had taken place for the better.

A sudden thaw had set in and business improved decidedly. Joseph Hume is dead, much respected and regretted. Very inclement weather caused suffering among the poor in England.

FROM THE CRIMEA.—On the 17th February, the Russians under Gen. Liprandi, 26 000 strong, attacked the Turks at Eupatoria, who were much inferior in numbers, and after four hours' fighting retired beyond the range of the shells from the English ships. [illegible] The loss of the Russians is said to have been 5000. Omer Pacha commanded the Turks in person, and their loss is considerable. It is believed that the importance of the battle is overestimated.

The weather had greatly moderated at Sebastopol, and snow had almost disappeared. The health of the army was much better, and the siege operations were progressing with vigor.

Orders have been received at Constantinople to prepare hospital beds for 10 000 men, from which it is inferred that an assault is to be made upon Sebastopol.

The Baltic fleet is to consist of 53 war steamers carrying 2,066 guns, five floating batteries with 80 guns, 8 mortar ships, and 28 steam gun boats carrying 66 guns, forming a total of 100 ships and 2078 guns.

Later From Havana. All quiet.

New York, 14th inst

The steamship *Crescent City* arrived this morning with Havana dates to the 8th inst. The steamer Eldorado arrived at Havana on the 8th from Aspinwall, and reports having been fired at twice by the Spanish frigate *Ferdinand*, and compelled to stop and exhibit her papers. One shot struck the water about 20 yards from her bows, and the other passed over the wheel-house.

News unimportant. All quiet on the Island.

Terrible Accident.

Concord, March 14

As the people were balloting in the new town hall in Meredith, the floor gave way and precipitated some 200 of them eighteen feet on the stones and rubbish beneath. Forty were taken from the ruins with limbs broken and others were severely injured—four of them are not expected to live and two deaths were reported when the train left.

NATIONAL LOAN FUND

LIFE ASSURANCE SOCIETY,

LONDON.

CAPITAL, - - - $2,500,000.

Guarantee Fund, $100,000, *Deposited with the Comptroller of the State of New York.*

The advantages offered by this Company are many, and the public are invited to call upon the Agent and make themselves acquainted with the System adopted by the Company, when they will be better able to decide whether Life Insurance is desirable or not and at what Office it is their interest to Insure.

The many reasons why Fire and Marine Insurance should be adopted, are incontrovertible, and Life Insurance, while it is in no way inferior with, or undervalues these important institutions has claims which no other system of insurance can have. Human existence must on consideration, enjoy a much higher estimation than worldly property.

While the representative of a *family lives*, (although, through neglect to insure his *property*, he becomes bankrupt,) he supports his family, but at his *death*, dies also their means of support, unless he has saved them from want by an insurance on his life, which may be done by the payment of a small annual premium, the payment of which has not diminished his own worldly comforts during life.

If young, the annual payment will be light and if insured with profits, the policy will be constantly growing more valuable though the *premium* is not increased.

Clergymen and others who have a stated and regular income, *should insure*, well knowing that at their death their families may be left destitute.

Men engaged in mercantile or manufacturing pursuits ever varying and uncertain in their issues, *should insure*.

The farmer who has a mortgage on his farm, should insure, at least to the extent of it, thereby enabling his family to pay off the debt in case of his death.

Cash Music and Piano Store

OF

HORACE WATERS,

No. 333 Broadway, New York.

OPPOSITION TO MONOPOLY.

Music at Greatly Reduced Rates.

NOTWITHSTANDING the *combination of music dealers* to keep up the prices of non-copyright music, *against the interests of native composers*, and their refusal to extend to Mr. Waters the courtesies of the trade, he is making immense sales—having abundant evidence that he has public countenance and support in his opposition to the Great Monopoly, and in his efforts to aid Native Talent, and to adopt the National Currency. His stock of American and European music is immense, and the catalogue of his own publications is one of the largest and best selected in the United States. He has also made a Great Reduction in the prices of Pianos, Melodeons, and Musical Instruments of all kinds. Superior toned 6½ octave Pianos for $175, $200 and $225, interior of as good quality, and instruments as strong and as durable as those which cost $500. Pianos of every variety of style and price up to $1000, comprising those of ten different manufactories, among them the celebrated modern improved Horace Waters Pianos, and the first premium Æolian Pianos of T Gilbert & Co's make (owner of the Æolian patent). Second-hand Pianos at great bargains. Prices from $40 to $150. Melodeons from five different manufactories, including the well known S. D. & H. W. Smith's melodeons (tuned the equal temperament) the best make in the United States. Prices $45, $60, $75, $100, $115, $125 and $150. Smith's Double Bank Melodeons, $200. Each Piano and Melodeon guaranteed. The best terms to the trade, schools, &c. 12½ per cent discount to clergymen and churches. All orders promptly attended to. Music sent to all parts of the country post paid at the reduced rates. General and select catalogues and schedule of prices of Pianos forwarded to any address, free of charge. feb14 3mosV&S

PATENT MEDICINES.

CHERRY PECTORAL,

or the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

AMONG the numerous discoveries Science has made in this generation to facilitate the business of life—increase its enjoyments, and even prolong the term of human existence, none can be named of more real value to mankind, than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt that no medicine or combination of medicines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on, to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures effected by its use but we would present the following, and refer further enquiry to my American Almanac, which the Agents below named, will always be pleased to furnish free, wherein are all particulars, and indisputable proof of these statements

Office of Transportation, Laurens R R, S C, Aug 4 [illegible]

DR J C AYER. Dear Sir,—My little son, four years old, has just recovered from a severe attack of malignant Scarlet Fever, his throat was rotten and every person that visited him pronounced him a dead child. Having used your CHERRY PECTORAL in California in the winter of 1850 for a severe attack of Bronchitis, with entire success, I was induced to try it on my little boy. I gave him a teaspoonful every three hours commencing in the morning, and by 10 o'clock at night I found a decided change for the better, and after three days use he was able to eat or drink without pain

Its use in the above named disease will save many a child from a premature grave, and relieve the anxiety of many a fond parent. For all affections of the Throat and Lungs I believe it is the best medicine extant. A feeling of the deepest gratitude prompts me in addressing you these lines, but for your important discovery, my little boy would now have been in another world

I am yours, with great respect

I take pleasure in selling it, because I know that I am giving my customers the worth of their money, and I feel gratified in seeing the benefit it confers

MEXICAN MUSTANG LINIMENT

THIS EXTRAORDINARY MEDICINE IS STILL working wonders throughout the World—eradicating everything in the form of disease that comes within the circle of its influence

The People Themselves

have long since adopted it as the only external remedy they could rely upon and the indisputable testimony of thousands is fast sweeping away

The Prejudices of the Faculty.

It is extensively used by the Faculty,

It is used by Mechanics and Laboring men,

It is used in families and factories

It is used expressly by all Express Companies,

It is used by Farmers and Livery-stable keepers,

It is used by everybody, and all speak in its praise,

Wherever it is used, it cannot fail,

The benumbed are brought to new life,

The deepest wounds and frightful sores are healed

The quivering nerves are made to vibrate with joy!

Use the Mustang Liniment.

Is the spontaneous advice of all

It has cured more cases of

Rheumatism

than any other medicine ever used. Its efficacy in this terrible disease is acknowledged by all who have used it. It not only cures the complaint, but appears to give vigor and elasticity to the limbs, before unknown—thus performing a double office

For contractions of the limbs, stiffness of the joints and muscles, hard lumps, swellings and fallen tendons, it is unrivaled in the power and efficacy of its operations

For Bruises, Sprains, Cuts, Scalds and Burns, but a few applications are necessary in order to effect a total cure

Cancer, or Scrofulous Sores, Tetter, Ringworms, Salt Rheum, Scurvy, Erysipelas, Boils, and Eruptions,

can generally be removed in a few days—and the worst cases can be cured in a few weeks at the furthest. Persons afflicted with these diseases, should be careful in getting the right article to cure them

Use it upon Your Horses,

for spavin, splint, ring bone, fistula, windgalls, big heads, bruises, strains, string halt, scratches, cracked heels, sweeney, saddle, collar, or harness galls, hollow horn, lumps or tumors, film or other diseases of the eye, poll evil &c

The finest horses in the city of New York, can be found in the stables of the various Express Companies—and they all use

The Mustang Liniment,

totally discarding any other preparations of the kind, and have all given their certificates to its value

This we presume will be a sufficient guarantee to induce every one who owns a horse, to give the Mustang a trial

THERE is no Drug, or Country Store keeper

Who pretends to keep medicines at all,

But what keeps a constant supply of the

Mexican Mustang Liniment.

The small size retail for 25 cents per bottle,

The medium sized retail for 50 cents per bottle,

The large sized retail for one dollar per bottle,

The medium hold three times as much as the small

The large holds nearly three times as much as the medium,

Therefore the largest bottles are the cheapest
